Sadhana Panchakam – Class 6

Having discussed sravanam and mananam part of Jñāna yoga, Sankarachariyar is discussing nidhithyasanam which is meant to convert the knowledge into emotional strength. This is meant for Jñāna nishta. Nidhithyasanam is of two types:

1. Withdrawing from all vyākara and dwelling up on vedic teaching. This is sitting nidhithyasanam .
2. Always being alert in my day-to-day transactions. Being alert in my response to various situations, in the language I use in my transactions. Making sure that all my transactions are in keeping with vedantic teaching and not contrary to vedantic teaching. This alert life itself is a nidhithyasanam and is as important as the sitting nidhithyasanam. This is not confined to a particular time; it is through all my waking time.

When a person takes to nidhithyasanam, Sankarachariyar wants that person to note certain points. These are all values to be followed even before coming to Jñānam and values to be followed for gaining Jñānam. First, I follow them for Jñāna and thereafter I follow them for nishta.

1. Never argue with anyone, especially wise people. Because arguments can boost the ego. Also, we lose the opportunity to learn from wise people. Here we should make the distinction between vadhaha and samvadhaha (student clarifying doubts with a teacher). How do we distinguish between the two? There are many differences between vadha (arguing) and samvadhaha (questioning):
 1. When I argue with someone I look up on that person

as equal or inferior to me. Whereas in samvadha, I don't look up on my teacher as superior to me, in knowledge, in maturity and in all aspect. There is a basic difference in attitude. This attitude is expressed by the very language and tone I use.

1. Often when I enter into an argument, I have made a conclusion on the topic. Through argument I want to either establish my conclusion or refute the other person's conclusion. Whereas in a student's approach, the student has never made a conclusion. His aim is not to establish his conclusion or refute teacher's conclusion; he just wants to learn. In one the mind is closed because the conclusion is already made, in the other the mind is open because conclusion is not made.
1. In argument, I try to talk more and more, and I don't allow the other person to talk at all. Even if the other person talks, I don't listen, and I interfere before he has concluded. Whereas the student talks the minimum; he wants to put his idea to minimum and he wants the teacher to talk more and more; when the teacher talks, he listens attentively and does not interfere.
1. In argument, since I have not listened to the other person, I have nothing to reflect up on. Whereas I am listening to the teacher, I work on what I listened.
1. There is a possibility that even after elaborate explaining, I am not convinced of teacher's conclusion. Politely I ask once more, and teacher explains once more and I am still not convinced. I put off further questioning and think over the answers given. After giving enough time, I can raise the question. Whereas in argument, repeatedly arguing the same thing.
1. After samvadha, there is no disturbance or

bitterness in the mind, whereas after argument there is always bitterness and disturbance in the mind.

2. Be humble; amanithyam; make sure you don't become arrogant because of this knowledge. Constantly remove the arrogance.

Verse 6

Food is required for all states. Sankarachariyar discusses food for sanyasi, because grihastha gets food at home. He discusses food as though it is a disease. Hunger is also some kind of disease because you are not at ease:

1. For disease there is a remedy in the form of medicine; for hunger there is a remedy in the form of food.
2. When you take medicine, the aim is only to cure the disease. It is taken only when there is disease and only as much required to remove the disease. In the same way, you must take food, only when there is hunger.
3. Since I am taking the medicine only for the disease, I am not particular about the taste of the medicine. Likewise, the likes and dislikes of food should not be important.

So, you should treat the disease of hunger regularly. But you should not ask for delicious food, because it identifies with your tongue and results in you identifying with the sthūla śarīram. Put up with the opposite experiences like heat and cold which are dependent up on desa, kala and prarabtha. These are the instructions for eating tongue. Now gives instructions for talking tongue:

1. Do not utter single word when it is not necessary to

talk. Every word is spoken only after a well processed, well thought out and well monitored. All spiritual sadhanas begin with tongue – eating and talking tongue.

2. Even if you want to say something, make sure the other person has respect for your words and whether he wants your advice. Ensure that the other person values your advice. Example: Krishna advises Arjuna only after Arjuna requires it, Krishna starts Bhagwat Gita only in second chapter.
3. Don't join any group and have only good word for everyone. Everyone has good and bad parts, and I only talk about the good words for everyone, otherwise I observe silence.
4. Some people may be good to you and another set of people may be cruel to you. But don't develop raga because they are nice to and don't develop dwesha because they are not nice to you. Don't let their behavior generate raga or dwesha. Let their behavior be forgotten right then there. If they ill treat you, forgive them and forget. If they praise you, thank them, thank the lord and forget.

Verse 5

In previous verses Shankaracharya give supportive sadhanas for nidhithyasanam. The primary sadhana is dwelling up on teaching. If we follow these supportive sadhanas, mind will remain tranquil and ready for primary sadhana. Sit in a quiet place, fix your mind up on the supreme Brahman. See that Brahman none other than poorna atma, the primary illuminator.

Mandukaya Upanishad, Class 15

The aim of the seeker is to grab hold of viśva (attention is on the object I witness), then to chaidhasa (attention to witness of the subtle), then to Pragya (witness of casual universe) and finally to Thuriyum. In Thuriyum I turn my attention to I the observer, who am continuously there.

In omkara, instead of viśva, chaidha and Pragya we are turning the attention to akara, ukara and makara. Ultimately I turn my attention to the consciousness which is the witness of the silence. From sound to silence to the witness of the silence. Both sound and silence are object but the awareness is not the object, but it is the witness of the silence. Sound is not in silence and the silence is not in sound, but the witness is in both. Omkara vichara is from the sound to silence to the witness of the sound and silence.

In the eighth mantra onward the Upanishads equates each mathra to each padha. The Upanishads prescribes a meditation to assimilate this equation. The sound Akara is taken as symbol of of virad or viwsa roopa. By practicing upasana, when we say the sound akara, the whole viśvarūpa should come into mind.

The idols are not piece of arts for us, but Vishnu or Shiva. Similarly we should train our mind to sound a as viśva. The two common features of the two are:

- Virat is the first gross creation; after Virat along all other devatas came. In the alphabet akara is the first letter.
- The sound akara alone transforms into all other letters. Akara is the transformative letter from all other letters are formed. Similarly Virat is also all pervading.

The benefit of this upasana are:

1. Worldly benefit; or Attains kamas and pervades in terms of his possessions. He expands in life also; in terms of children, grandchildren etc.
2. In life, he will become top most.
3. The spiritual benefit is his capacity to equate akara to viśva. This very skill is a spiritual benefit. When he practices vedantic meditation, as he chants omkara, his mind thinks Virat, to Hiranyagarbha and then to andaryamin then to chaithanya adhirshatanam. Facility or skill in omkara dhyānam through which he can smoothly land in consciousness.

Mantra 10

Taisaja, whose filed is the dream state, is the second letter "u" due to the similarity of superiority and mindlessness. One who mediates thus extends the range of knowledge and becomes equal to all. In his family there will be no one who is ignorant of Brahman.

The second pada chaidhasa or Hiranyagarbha representing the subtle universe. This is equated to the second mathra ukara. 0 is a mixture of akara and ukara based on the sandhi rule. This ukara symbolizes the meditation on the second pada. Common features of ukara and chidhasa:

The superiority: Hiranyagarbha is superior to Visva. Hiranyagarbha is superior because:

1. Subtle is always superior.
2. Gross is born out of subtle. Sukshma is kāraṇam (cause) and gross is kariyam (Effect).

Ukara sound is superior to the sound of Akara because ukara comes after akara. Therefore akara resolves into ukara.

Ukara being the resolution ground, it is superior. Therefore Hiranyagarbha and ukara are both superior.

Second common feature is that they both are intermediary status. If you take viśva, chaidhasa and Pragya. Chaidhsa is in the middle; ukara is the middle between akara and makara. Train your mind to see the whole subtle universe or the cosmic mind or cosmic knowledge.

The benefit of this upasana:

You can practice this as a sakama upasana, you will get the following two results:

1. Because the upasana is on total Jñāna sakthi, it is equal to Saraswathi upasana and the upasaka will become a great learner. The extent of his knowledge will increase.
2. He will become a common man to everyone. He will be accepted by all groups. His knowledge will influence other members of his family also and they will become more learned person.

Mantra 11

Pragya, whose field is the sleep-state, is the third letter "m" due to the similarity of being a measure and being the ground of dissolution. One who meditates thus knows the truth of all this and becomes the ground of dissolution.

The third mathra of omkara is makara and should be equated to Pragya otherwise called andharyami or Eeswara. Pragya should be mediated up on makara. The two common features:

1. Mithihi means a measuring vessel. Pragya and makara are comparable to a measure. Measure (ulakku) disappears in a sack of grains and appears again later. Pragya is also a measure. When I go to sleep, the visible world

of my knowledge, ignorance they all enter into me. But they all appear again when I wake up. This cycle happens every day. Therefore Pragma is like a measure. Similarly when you say makara also, we swallow all other sounds. The speaker when he closes the mouth with the sound ma, all other sound dissolves, but they all come back when I speak again. So the sound ma is also like a measure where all sounds disappear and appear.

2. Abithihi: Means ground of dissolution or merger or disintegration. This is the common feature between common feature between Pragma and makara. Pragma stands for one who is in sleep state; one associated with kārāṇa prabañca. As Pragma I dissolve everything into me. At samshti level, Eeswara dissolves everything into himself. The sound makara is also the resolution of all other sounds. When you shut your mouth, it becomes m. That will be the last sound you will product, when you close the mouth.

Keeping these two common features, one should practice.

The one who practices this upasana he will get two fold benefits:

1. Because of measure upasana, he will be able to measure everything and everyone properly.
 2. He becomes the ground of resolution; he becomes one with the Eeswara.
-

Sadhana Panchakam – Class 5

Shankaracharya discussing final stages of Jñāna yoga – sravanam, mananam, nidhithyasanam. Sravanam is nothing but systematic analysis of upaniṣadic statement. It is called vedanta vichara, vedanta mimamsa etc. Through systematic analysis we discover consciousness is the essence of individuals, and existence is the essence of the world; consciousness and existence are one and the same. This we call sat chit atma. Consciousness called sat and existence is called chit. This alone we call jivatma paramatma aikyam. This is sravanam.

Mananam is logically refuting all other systems which are contrary to vedantic teaching. Any knowledge involves two paths; one is seeing the rightness of the right path; second is seeing the wrongness of the wrong path. It is not enough to see the right alone; we also need to see the wrongness of wrong idea; if we don't, one day the wrong idea may appear right. Knowledge is knowledge only when it can't be shaken by anybody. I should know truth as truth and non-truth as non-truth. For opinions we can have variety, but for knowledge we can't have variety. Rope is rope and it is not a snake.

Vedanta makes statement regarding three fundamental things: Jiva, jagat and Eeswara. First it says jiva is infinite and ananda swaroopam. This we are not able to accept. Then it makes the statement about the world that the world is unreal. I am solidly facing the world all the time. How can I dismiss this wonderful solid universe? The third statement says that you are not different than the lord. This I can't accept at all. When we are in such despair, other system will be easily acceptable. Other systems say jivatma is different than paramatma. Paramatma created the universe and jivatma. All other systems are very appealing to intellect. They all claim that they are rational systems based on logic and reasoning. Advaidam is based on sruthi, the vedas and use tarka or logic

as a subservient tool. That is why we say shraddha in sruthi is important. A rational person will not accept faith. Their order is reason and scripture. Our order is scripture and reason. Mananam is where every other system is clearly negated. That can be done only with logic. Acharyas of advaidam have logically pointed out the logical contradictions in other systems.

Shankaracharya establishes that logic can't be used in the discovery of reality because logic has inherent limitations. Logic and modern science etc. are deficient in discovering reality. Sruthi itself has said this limitation. This logical repudiation of other systems and seeing innate deficiency of logic alone increase our faith in vedanta.

If logic is deficient and can't reveal the truth, does it mean logic should be totally given up? Sankarachariyar says logic does not need to be given up totally but used as a tool to extract the meaning of sashtra. Don't use logic to invent a philosophy but use it to bring out the teaching of sashtra. This is called sruthi madha tarkakas. For all our questions and doubts, vedas does not give explicit answer. But at the same time, answers are hidden in vedas. We have to bring out the answer to remove my particular doubt. The method used for this is logic. Logic will be helpful in bringing out implicit answers. Many systems were not there at Sankarachariyar time, so he did not repudiate those systems. Later acharyas repudiate those systems based on vedas, using Shankaracharya's method. Answering all my doubts is mananam. The benefit of mananam is conviction of vedanta. I can say "Aham Brahma Asmi" without any doubt. That is a knowledge with conviction.

The final stage of sadhana is nidhithyasanam. Nidhithyasanam is a process by which the knowledge has to be converted into emotional, mental and psychological strength. Our original disease is ignorance, which is at the intellect, but the symptoms are expressed at mental level in the form of kama,

raga, lōbha etc. All the samsara is emotional but the root cause is at the intellect level. The solution is at the intellectual level. But it is not enough. I am convinced I am brahma asmi, but the symptoms of raga dwesha etc. must be totally rooted out. If not, the knowledge is as good as being ignorant. A vedanta does not help me in gaining calm, compassionate, considerate, generous, charitable mind – for that vedanta is utterly useless. This requires assimilation of the teaching. The knowledge coming at the emotional level as emotional strength, duty and refinement. This is called jivan mukthi. Knowledge is at the intellectual level, but the benefit is at emotional level. Assimilating vedanta requires effort and requires removing each weakness. It is a lifelong painful long process. It is a lifelong process of consciously addressing every emotional weakness. The weakness is different for each person. For one it may be a superiority complex and another it may be inferiority complex. Each of them should be removed. This is nidhithyasanam and it requires time and constant alertness to discover the weakness coming up. For this introspect is required to gain auto suggestions when the weakness appear on day to day life.

We should look at what I am (Brahman) and what I am not (śarīra thrayāṃ). I should be able to see my own body as one of the objects of the world. We should have the same objective attitude towards our body as well as the bodies of the ones we love. Then the knowledge will be steady and firm. Cultivate I am brahman notion and negate I am body notion. This is nidhithyasanam and it requires lifelong commitment.

Sankarachariyar gives instructions on how to live. These instructions assume a person is at the stage of sanyasi. We will modify it to fit everyone:

1. Make sure you don't become arrogant because of this knowledge. Constantly remove the arrogance. Always be

In karika # 6, Gaudapada said, whatever is impermanent is unreal while whatever is permanent is real. Swapna prapancha and jagrat prapancha both are finite as such unreal.

Shnakaracharya said object of experience is always mithya. Whatever is an object of experience depends on subject. Without subject, object cannot be proved to exist hence it is mithya.

In Karika # 8, we did make a change in sequence of Karikas to better address continuity of theme; here a questioner was asking as to why we can't take swapna prapancha as reality. Gaudapada refutes it by saying that whether dream is unique or not, dream depends upon the observer for its existence. Since the unique dream object depends on the dream observer, it does not have independent existence of its own and therefore it must be understood as mithya. There is no objective world existing. Ordinary and extraordinary all are dependent on subject.

In Karika # 7 another questioner says he agrees that swapna parapancha is unreal; but he says, I cannot accept Jagrat parapancha is unreal. His contention is as follows:

He disagrees with the definition that, "Whatever is impermanent or an object, is mithya."

He wants to give a changed definition wherein Swapna parapancha is shown as unreal while Jagrat prapancha is shown as real. He now suggests four definitions, in each of which, Swapna parapancha is shown as unreal while Jagrat prapancha shown as real.

Gaudapada refutes each definition. He says, you have to accept both as unreal or both as real; the idea that one is real while other is unreal will not work. We are working to define absolute reality, while you are defining relative reality or mithya, says Gaudapada.

should be rationally held to be unreal.

Karika # 9:

Here the questioner suggests a second, definition that proves that Swapna prapancha is unreal while Jagrat prapancha is real. He says Swapna parapancha is unreal because it is a mental projection. Dream world is within my mind as a projection, hence unreal, while Jagrat parapancha is outside me. I experience everything outside me; the desk, the people, the hall, etc; it is not a mental projection. What is within is unreal while whatever is external in reality. Whatever is external is real and whatever is internal is mithya. Externality is the criterion for reality and internality is the criterion for unreality. He suggests dream world is unreal while this world is real.

Gaudapada says: you say swapna prapancha is inside; word inside is a relative one. If asked the question, are all of you inside or outside, what will be your answer? You will probably never answer; rather you will ask, inside of what? If I say it is about this stage where I am sitting, the answer will be it is outside. So one needs to know inside or outside of what? From which stand point? From waker's stand point it is outside. But in dream, you are performing all transactions with dream body, while waker's body is lying on bed. From dream body point of view, the dream world is outside of it; I don't even know I am dreaming; **dream itself is only from waker's point of view.**

Now suppose you wake up and your reference point changes. From waker's point of view Swapna parapancha is within. The same is story of Jagrat prapancha as well. Once you look at Jagrat prapancha from Jagrat body point of view it is outside hence real. But if you wake up from Jagrat prapancha to Chaitanyam, from point of view of Chaitanyam, Jagrat prapancha is also within. So, when you the change point of reference it becomes unreal; so it is a relative truth or mithya.

one from the other.

Swamiji jumped to karika # 14 from karika # 10 for the third definition. He said he is rearranging karikas for purpose of continuity.

In karika # 14, the questioner suggests a third definition of reality that says Jagrat prapancha is real while Swapna parapancha is unreal; he says whatever has an objective existence is real while whatever has subjective existence is unreal.

Elaboration of questioner's position:

Subjective existence means dependent on Me as long as I see it.

Objective existence means, it exists, whether I see it or not.

My house, my car, all I know exist. So, does my car exist outside? Car exists even when I don't see it. Whether I experience it or not, it exists. Object exists independent of me.

In dream, I see, I am saving a drowning person; just as I am about to bring him out, I wake up. Did he fall back in the well? But now, in the waking state, I am not worried about it anymore. You know he existed only in dream. So Swapna prapancha was subjective existence; it did not have a continued existence. Hence dream is unreal, as it has no objective existence. Thus, objectivity is criterion for reality. Subjective existence is criterion for unreality.

Gaudapada's rebuttal:

Gaudapada says this definition will not work. In dream you attend a class and you have parked the car. This swapna world, the dream, it is not just a projection of mind; it is a real world for the dreamer. Only on waking, Swapna Prapancha becomes unreal. Similarly, Jagrat prapancha is also unreal

Dream world is very clear with dream sense organs; it becomes vague only with waker's sense organs.

If I should only have four sense organs, say like a blind person, the world of color will not exist for me. Imagine a person with a sixth sense organ; he will see world very differently as it depends on all sense organs. Hence world is only a relative reality.

So, he says, that which is within us, in Swapna Prapancha, is vague, where as external world for dreamer is very clear, hence real, as long as dream continues. On waking up, the outside world becomes unreal.

Clarity and non-clarity depend on organs one uses. World of human beings is different from that of animals. Even world of man is different from that of a woman.

Take Away:

If so, when will you have final waking up? Ultimate reality is only when you arrive at "object less- subject" or Turiyam state.

Dream itself is only from waker's point of view.

With Best Wishes,

Ram Ramaswamy

Baghawad Geeta, Class 143:

the body, am available in front of you and the whole creation is my shariram alone; you can see the Vishva rupa right in front of you; O Gudakesha. Gudakesha means satva guna pradhana. Arjuna you can; it only requires some refinement, it is possible for you.

This vision includes all moving and nonmoving objects that consist of the body of the Lord. Not only can you see all this but you can see anything else you wish to see as well. So, Sri Krishna offers to cooperate with Arjuna in giving him this darshanam.

Shloka 11.8:

□ □□ □□□ □□□□□□□□□□□□ □□□□□□□□□□
□□□□□□ □□□□□ □□ □□□□□□ □□□□ □□ □□□□□□□□□□□□□□□□11.8□□

But you are not able to see Me merely with this eye of yours. I grant you the supernatural eye; behold My divine Yoga.

Sri Krishna introduces the requirement for two types of eyes. He says, you can't have Vishva rupa darshanam with laukika eyes alone; you need the second invisible Divya Chakshu as well. Some people say even the Tilakam is symbolic of a third eye, of a prepared mind also known as Bhavana Chakshu.

Imagine a tourist taking pictures in a Hindu temple. He may see the antiquity, the age of statues etc but he will not perform namaskaram to the idols, as he is not imbued with a sense of the divine in them. It is in our culture that we see the divine even in a stone idol due to our attitude.

When Vibhuti comes we apply it on our forehead. Ash itself is worth nothing; it is our attitude, however, that makes it the Vibhuti. And what is that ash worth; its worth can be seen only by Divya chakshu; and therefore Sri Krishna says Vishva rupa darshanam requires divya chakshu; to do namaskaram, to revere, requires divya cakshu; to do the prokshanam of the river water requires Divya Chakshu; without that it is not

many faces, and many mouths; many eyes; how are we to understand the Lord with many eyes; does it mean that eyes are sticking all over; and if mouths are all over, how eyes will be all over; therefore do not imagine a form with countless eyes and ears; Arjuna learns to see all the mouths of all the people as the mouth of the Lord. There is no more it is my mouth; that is called ahamkara.

When I myself am not there; there is no individual separate from totality; There is no Tamil Nadu; separate from India; there is no wave separate

from ocean; there is no vyasti separate from samashti. When the egoist "I" do not exist anymore where is the question of saying my mouth, my eyes; my land etc.

As somebody said, **it is better to have a heart without words rather than words without heart behind it.** And therefore that bhavana is important; all the mouths are Bhagavan's mouth; all the eyes are Bhagavan's eyes Innumerable wonders, all of them belong to God. Lord is wearing many ornaments; all ornaments in universe are god's abharanam. In our culture, before wearing an ornament it is placed in front of Lord. I am only taking it on lease. I will use it without claiming ownership or mamakara is the spirit behind it.

Lord with countless weapons in his raised hands. Sanjaya mentions weapons as Gita is occurring in a battlefield; all these weapons belong to the Lord. How is a weapon divine?

Two reasons are given:

1. When weapon is in the hand of a person, it is laukika but in hand of god, it is divine. If everything is in God, everything is sacred.
2. All weapons are for protecting Dharma as such associated with Lord or divine. God is in form of order and harmony in creation.

Should the effulgence of a thousand suns blaze forth simultaneously in the sky, that might be similar to the radiance of that exalted One.

What is brilliance of the Lord? I am not able to even look at the sun; sun being an ordinary star. I can't withstand looking at the sun. Imagine if I can see the brilliance of a thousand suns; imagine if I can see the brilliance of all stars. Sanjaya says, suppose the brilliance of a thousand suns rises simultaneously, that is the comparison for the brilliance of Vishva rupa Ishvara; it will be indescribable.

So that will be the brilliance; that will be the comparison for the brilliance of the mahatma; mahatma means Vishva rupa Ishvara; So that is the brilliance, it is indescribable. Mahatma Here means the infinite body that is the Lord

Shloka 11. 13:

□□□□□□□□□□ □□□□□□□□□□□□ □□□□□□□□□□□□□□□□
□□□□□□□□□□□□□□□□ □□□□□ □□□□□□□□□□□□□□□□□11.13□□

At that time, Pandava saw there, in the body of the God of gods, the whole diversely differentiated Universe united in the one (Cosmic form).

Sanjaya continues; saying Arjuna saw everything in the infinite body of the Lord. It is divided in manifold forms; Arjuna saw in manifold forms in the body of the Lord. Yashoda also saw the whole universe in Sri Krishna's mouth. Sharira here is not the limited body rather it is the vast space itself.

Sanjaya reports that before obtaining the Divya Chakshu, Arjuna saw the world as a persecuting world; problematic world; unfaceable world, burdensome world. Now the very same world has become totally different and therefore after being blessed with Divya cakshu Arjuna saw the Vishva rupa.

Take away:

“It is better to have a heart without words rather than words without heart behind it.” This is the bhavana required.

Divya chakshu is the refined mind free of kama, krodha, raga, dvesha, ahamkara and mamakara.

With Best Wishes,

Ram Ramaswamy

Bhagawad Gita, Class 142: Chapter 11, Verses 3 to 8

Shloka # 3:

श्रीगुरुभ्यो नमः ॥ श्रीगुरुभ्यो नमः ॥ श्रीगुरुभ्यो नमः ॥
श्रीगुरुभ्यो नमः ॥ श्रीगुरुभ्यो नमः ॥ श्रीगुरुभ्यो नमः ॥ 11.3 ॥

Supreme Lord! Highest Spirit! It is even as you have described yourself. Yet I would like to see this lordly form of Yours.

Continuing his teaching, Swamiji said, Chapter # 11 is dealing with Vishwa Rupa Ishwara Darshanam. We should have a clear understanding of this Ishwara darshanam. It talks of a very thrilling, electrifying experience for devotees. Shabari waited for years for a glimpse of Sri Rama and at last when gets it and the great thrill she enjoys has been described. Similarly Thyagaraja also sings about Shabari's Darshanam of Rama. Similarly, Sri Krishna darshanam is also talked about.

All darshanams are considered mystic ones.

Now, to have an experience, the object of experience must be available to me; also there must be an experiencer, who is prepared for the experience. Let us say I talk about Carnatic music; but unless the listener has some idea of Carnatic music he cannot enjoy my talk, as he is not prepared as a listener. Normally we focus on the object of experience and forget the experiencer. This is true of Ishwara Darshanam as well. Shabari got Sri Rama Darshana Ananda but it was not only due to Sri Rama but also because Shabari was prepared for the darshanam.

How to prove this? Swamiji says, the very same Rama was available to Ravana as well but nothing happened. Object was available but subject was not prepared; Ravana's mind did not change even after darshanam.

So preparation on part of person is important else even god is helpless.

How about Kamsa? He too had Sri Krishna darshanam but he never changed one bit. Several Rakshasa's even used the darshanam for negative purposes; Basmasura is one that comes to mind. So, for Ishwara darshanam I need a tremendous amount of preparation.

Vishwa Rupa Ishwara is Lord in form of Universe. If you know it's meaning, you know he is right in front of you. God's first name in Vishnu Sahasra Nama is Vishwam. He is already available in front of me. If we don't get thrill of darshanam, it is because of non-preparedness of devotee. That preparedness is nothing but purity of mind, a mind without kama, krodha, moha, madha, lobha and matsarya. These are the obstructions to this darshanam. When the cataract of the obstacle of kama, krodha, ahamkara and mamakara impurities are removed, God need not come; I begin to appreciate the already available Vishvarupam.

ॐ नमो भगवते वासुदेवाय ॥
ॐ नमो भगवते वासुदेवाय ॥ ११.६ ॥

See the Adityas, the Vasus, the Rudras, the two Asvins and the Maruts. O scion of the Bharata dynasty, behold also the many wonders not seen before.

ॐ नमो भगवते वासुदेवाय ॥
ॐ नमो भगवते वासुदेवाय ॥ ११.७ ॥

See now, O Gudakesa (Arjuna), the entire Universe together with the moving and the non-moving, concentrated at the same place here in My body, as also whatever else you would like to see.

ॐ नमो भगवते वासुदेवाय ॥
ॐ नमो भगवते वासुदेवाय ॥ ११.८ ॥

But you are not able to see Me merely with this eye of yours. I grant you the supernatural eye; behold My divine Yoga.

Now, Sri Krishna answers:

Even though Vishva rupa is right in front of me, to get the impact of Vishva rupa darshanam, I should have prepared the mind, which I call, Divya chaksu or purification and purification is a very slow and gradual process. It involves a long religious life and it also involves following dharma or values of life. If devotion and values are not there, for such a mind, the benefit of Vishva rupa darshanam will not be available.

Here, Arjuna was lucky to have Sri Krishna in front of him. He requests a temporary purification of mind.

But the purification will only be temporary; it does not last like a dialysis. Similar temporary purification can even be obtained from a Mahatma.

Since this purification is artificial, its full benefit is not

realized. So, later in Chapter # 11, when Arjuna gets the darshanam, he is not able to stand Vishwa rupa darshanam. He tells Sri Krishna, I don't want this Vishwa rupa darshanam. Only a truly purified mind can absorb such a darshanam.

So, Sri Krishna accepts Arjuna's request. Just as one needs a 3 D glass for some movies, Sri Krishna says, I will bless you with a Divya Chakshu so that you can see many of my forms, varied in nature; all divine; of different colors and shades. When you will see rupa in many colors it is not a particular form, rather it is all forms and colors of universe, as all are Ishwara varnanam.

Citing an example Swamiji says, form does not belong to the bangle; it belongs to gold. Thus, Sri Rudram describes Shiva in many colors. This rupam is available to all cowherds. They are all the colors of Vishwa rupa Shiva. The green hairs of Shiva are the green trees. My mind should see it as Vishwa rupa darshanam. Thus, we see same colors, but we need to see them with a different attitude; it is like seeing a laddu from Tirupati, it becomes divine; it is appreciated by the mind that has devotion.

Vishwa rupa has many heads. All heads of peoples are the head of god.

Verities of devatas, representing natural forces are described next. The eight Vasus with different forms are Agni, Prithvi, Antarikhsam, Intermediary lokas, Vayu, Aditya, Chandra, and Stars. May you see the eight Vasus in Vishwarupa.

Twelve Adityas are the sun gods' different changing stages in the twelve months of the year. In each month he has different powers. May you see the Adityas as Vishwarupa.

Our ten sense organs and mind are called Rudra Devata. May you appreciate the Rudras.

Ashwini Kumaras are the ones presiding over Pranas. May you

appreciate them as well.

Marut Devatas are different aspects of Vayu Devata. You have not noticed all of them as Vishwarupam.

And therefore rain is a wonder; earth is a wonder; Sun is a wonder; anything you take it, is a wonder,

it is the glory of the Lord. May you see that; temporarily drop your day-to-day business; temporarily keep your cell-phone somewhere. After its (cell phone's) coming, there is no time for anything; so wherever you go drop it; and just watch the universe.

So in Me the Vishva rupa Ishvara; whose body is the very sky itself, see the entire universe.

When Yashoda asks Sri Krishna to open his mouth she saw all the 14 Lokas; and then she said, shut up. She was not prepared. Sri Krishna is blue as sky; it means vast blue sky is a form of Sri Krishna, with galaxies floating in it. The whole universe is contained in Me.

Last week or so, some student; I do not remember who that student is, gave a cutting; so I just read through it; it is a very interesting write up, I will read only the first paragraph alone. It describes the Universe.

It says, consider a puff of dust a meter in diameter. Consider every grain of dust is a galaxy with many stars. We live near an ordinary star and are member of an ordinary galaxy. Every night we are shown that the universe has a beginning but most of us simple regret, use or enjoy the dark without perceiving that; it brings knowledge; If you are willing to learn from darkness, he says; even though so many stars are there; between the stars there is a vast emptiness is there. Think what must be the size of the universe; which accommodates all these galaxies and stars. This universe, with vast emptiness and galaxies are accommodated in space; so what must be size

of the space; and that space is the
size of the Lord; Meditate upon that, Try that.

With Best Wishes,

Ram Ramaswamy

Mandukya Upanishad, Class 20

Greetings All,

Continuing his teaching, Swamiji said, I said in last class in Vaithatya Prakaranam, Gaudapada establishes Mithyatvam of world. It is not directly mentioned but indirectly revealed through Prapancha Upashamanam. This method is called Shruti Pramanam or Shrutyartharthi pramanam; which means obtaining knowledge indirectly from scriptures.

What is reality can't be negated. We can't say world is not existing as we experience it everyday. That which is experienced, yet is not reality, is called Mithya. The English word closest to Mithya probably is unreal. Gaudapada establishes this mithyatavam from Prapancha Upashamanam.

Mithyatvam's closest example is dream. It is experienced by all of us. In dream we see that it is very real, giving us pleasure and pain. Dream also has utility value when we are actually in a dream; despite all this we know dream is not real. So best example for mithya is swapna.

In first three shlokas of this chapter Gaudapada establishes

swapna is mithya. That swapna is mithya is established through Yukti, Shruti and Anubhava pramanam's and he does so systematically.

He uses Vyapti for generalization thus he says where there is smoke there is fire. The statement, "a mountain is on fire as it has smoke" is analyzed as shown below ,using Gaudapada's logic:

1. Mountain is the paksha or locus about which I make an inference.
2. Mountain has fire; it is called sadhyam or conclusion.
3. Because there is smoke, the indicator, it is also known as Hetuhu or the reason.
4. Drishtantaha: means an example, as in a yagashala; because it is in a yagashala that you get Vyapti Gyanam or knowledge for inference.

This method of logic is now used to show Swapna is Mithya. Vyapti here means knowledge of co-existence of smoke and fire. Here Vyapti is a generalization. When we see an object in jagrat avastha as real, we observe that the object requires an area and volume (space) for existence, also known as Uchita Desha in Sanskrit. Not only volume of space, every object also needs duration (time) for its existence.

Einstein talked of four coordinates, the fourth one being time, indicated by date of origin and expiration. Every object requires a time.

Existence of events also requires duration of time. In Gita classes a question comes up. Swamiji, you teach the 700 verses of Gita in five years or 250 hours, describing the teaching in battlefield; how did Sri Krishna teach all 18 chapters in the duration of a battle? The basis for this question is because every event requires a specific duration of time and if specific duration of time is not convincing, you tend not to believe it.

Pratyaksha Pramanam:

(perception)

In second line of this shloka we get Pratyakhsa pramanam from our experiences. Suppose in dream we went to Kashi; we saw many cows there; and one cow pushes you and you wake up. If it was a real cow you should have woken up in Kashi, but reality is that you woke up in Chennai. From this it is clear we never went anywhere in dream. After waking from dream one does not experience that he is in dream place, hence dream places, dream travel, dream cows, are all, unreal. This is Prathyaksha Pramana.

Shloka # 3:

Shruti and shastra pramanam.

(convincing illustrations on the subject matter which is beyond senses/common cognition)

□□□□□□ □□□□□□□□ □□□□□□ □□□□□□□□□□□□ □
□□□□□□ □□ □□ □□□□□□□□ □□□□□□ □□□□ □□□□□□□□□□ □ □ □

Strictly conforming to reason and logic, Sruti also declares non-existence of the chariots and so on, perceived in his dream by the dreamer. Moreover, it is said by the seers that Sruti herself declares the illusory nature of dream experiences, and establishes the same through logic and reason.

Shruti Pramanam:

In Brihadaranyaka Upanishad, Ch 4., section 3, the waking, dream and sleep states are discussed. In swapna there is nothing. Everything is a mental projection. There are no vehicles, no roads, etc; we manage to project them in our mind. They are mithya even though we experience them. **“Experience does not prove reality” is the lesson of Upanishad. Gaudapada shakes us even further with his declaration that, “**

said you drank two bottles; and since he was seeing doubles anyway, he said you have to pay for two bottles at Rs 100 each. The drunk took out a hundred-rupee note and said it was Rs 200 for the two bottles; he was still seeing doubles.

Similarly, for dream body, dream world is very real. So also from waker's point of view this world is very real. **Once you wake up, the dream world is now mithya. Similarly, once you shift to Turiyam standpoint, jagrat avastha is also mithya.** Thus, Swapna prapancha is real for swapna shariram while Jagrat prapancha is real for sthula shariram. Both are in fact "unreal" in respective jagrat and Turiyam states.

Therefore wise people declare world is Mithya in jagrat avastha, as well. So jagrat prapancha is exactly like dream world. Is there any difference between two states? Between mithya jagrat prapancha and mithya swapna prapancha, Jagrat prapancha is outside of body while swapna prapancha is inside body. The common factor between both states is Mithyatvam.

I accept Swapna prapancha as mithya as it does not have time and space. But Jagrat prapancha has enough time and space; if so why is it Mithya?

Take Away:

" Experience does not prove reality" is the lesson of Upanishad. Gaudapada shakes us even further with his declaration that, " Whatever you experience is not real. There is only one reality, the " Subject" alone is real."

Once you wake up from dream, the dream world is now mithya. Similarly, once you shift to Turiyam standpoint, jagrat avastha is also mithya.

With Best Wishes,

Ram Ramaswamy

Baghawad Geeta, Class 141: Chapter 11, Verses 1 to 3

Continuing his teaching, Swamiji said, having completed chapter 10 known as Vibhuti Yoga, now we are entering Chapter 11 known as Vishwarupa darshana yoga. The word yoga attached to each chapter refers to the episode or the topic. So vishwarupa darshana yoga means the episode, which deals with vishwarupa darshanam. It means Vision of God as Vishwa rupa. What is Vishwa rupa? Rupa means form and Vishwa means world, or Lord whose form is the very universe itself. Then the question comes up, how to get such a vishwa rupa darshanam? When a devotee wants to see God such as Rama, Krishna or Devi, scriptures tell us how to get that darshanam. **Scriptures prescribe tapas or meditation or concentration. The devotee decides which form he wants to see. Then he concentrates on that form as per dhyana shloka. He has to learn the dhyana shloka to be able to concentrate on that form.**

He has to visualize that particular form and generally a mantra is also taught, just as narada taught mantra to Dhruva, Prahlada etc. and the devotee has to do the Purascharanam of that mantra; Purascharanam means you find out how many letters are there in that mantra; say if there are six letters, you multiply it with as many lakhs; say if it is Gayathri mantra with 24 letters then japa is performed either for 24 lakhs times or 24 crore times. So you do dhyanam; you do Purascharanam, as described in the scriptures; and if a person follows this kind of tapas, the shastras prescribe that the devotee will have the darshanam of the Lord in that particular form.

This is not our mental projection, but the Lord himself

through his maya Shakti gives darshanam, in a particular form, to the Devotee. And this exercise is called Devatha sakshatkarah.

Thus devotees such as Tyagaraja and Meera have had darshanam of Rama, Krishna, respectively. Now the question is if he wants to have a vision of God as the world itself, how to do it?

Do we have to invite god to come in form of Vishwa rupa; if so, we have not understood the meaning of Vishwa rupa darshanam. Vishwa rupa means I want to see God as world, but I can't invite him in this form as he is already in this form. What then should I do to obtain darshanam in the form of the world?

There is only one answer. I have to learn to see the world in the form of god. I should learn that this very world is Ishwara, and then Ishwara alone is giving darshanam to me in the form of the world. There is no other method.

Japa mantras are for Rama, Krishna darshanam, not for Vishwa rupa darshanam. If so, how do I train myself? Here again there is only one method; I must assimilate the teaching that God is material cause of the universe and that he alone manifests as the universe. Here, every vision in front of me is a different version of God. I should clearly understand this teaching and with this my perspective changes. **This new perspective is called Divya Chakshu or the mystical eye.**

Citing an example, some one gives you a laddu and then tells you it is from Tirupati temple; then immediately your perspective changes; you now, consider the laddu a prasadam and you first apply it to your eyes before eating it. The status of prasadam is not physically evident; it comes from understanding that the laddu is from Tirupati. **This prasada is adrishtam or divination of laddu through a change in perspective.**

boundaries of the body; and consciousness survives even after the fall of the body; that eternal all-pervading consciousness is my nature. Sri Krishna gave a brilliant description of this essential nature of Consciousness, in the 2nd chapter from the 12th shloka, up to shloka No.25. Then he talked about that in the 3rd chapter, in the 4th chapter and in the 5th chapter.

Thus, in Chapter 2, shlokas 12-25, Consciousness is the focus. In Chapters 3, 4, 5, nature of Jiva is presented. Arjuna says I have understood all that very well.

Teaching given by you, purely for blessing me, is for saving me from sorrow (Arjuna Vishada Yoga). They are most sacred words that reveal atma, the reality. They are greatest secret not easily available in the world, from a rare Gyani. The words are spiritual teachings. Through this teaching my delusion is gone.

So you should remember the context of the Gita teaching; Arjuna surrendered to Lord Krishna due to his confusion. On one side, my mind says killing my kith, kin and Guru is not OK, but on the other side I can kill for protection of dharma. Now my doubts are getting cleared regarding confusion as to what is right and wrong. It is confusion about ethics and philosophy. Gita deals with ethical and philosophical confusion.

Normally the veda purva bhaga is meant to resolve

ethical conflict; veda antha bhaga is meant to resolve philosophical confusion. Gita is a unique Shastra, which deals with ethical conflict; as well as philosophical confusion. And therefore Arjuna says; I am getting clearer and clearer.

Shloka # 2:

ॐ नमो भगवते वासुदेवाय ॥ श्रीकृष्णाय नमः ॥
ॐ नमो भगवते वासुदेवाय ॥ श्रीकृष्णाय नमः ॥ 11.2 ॥

About the birth and dissolution of beings I have heard from You at length, O Lotus eyed one! As also about your immense grandeur.

Arjunas reverence for Sri Krishna as a teacher is increasing. The word Kamalapatra in shloka means God with Lotus Eyes or eyes like lotus petal that describes God's inner beauty. This was dealt with in Ishwara swarupa chapters 7-10. Chapter 8 is an odd man out. You defined God as jagat karanam. You defined God as material cause of universe. Out of god alone universe comes, rests and resolves; that is Srishti, Sthiti and Laya Karanam. Everything comes from you alone. If waves are born from ocean and resolve in ocean, then there is no separate wave from ocean.

All the things and beings; this whole creation of things and beings is from you alone, as the very adhara, as the very ashraya. That means what? If waves are born out of the ocean and resolves into the ocean, it means there are no waves separate from the ocean; in fact wave is only an additional name given to the very ocean itself; similarly the whole creation is like a wave in the ocean of God. Shankaracharya beautiful presents in atma Bodha that the entire cosmos of several billions of galaxies is nothing but bubbles; so each galaxy can be compared to a small bubble and all these bubbles of galaxies are rising from you; and there are no bubbles separate from ocean. Similarly there is no creation separate from God or to put in another language; God is in the form of world, I heard this very clearly, and how did you teach, very elaborately. The upanishadic teachers are not detailed; rather they give the srishti and all within a few mantras.

The teaching is also for a madhyamadhikari such as me. In chapter 10 you also revealed your glories, Vibhutis, spread all over the universe. These glories are in exhaustible, the Vishwa rupa mahima. Mahatyam and Vibhuti mean the same. The proof is that my delusion is almost gone. It finally goes away completely in chapter 18.

If delusion is gone what is Arjuna's next question?

Shloka # 3:

ॐ नमो भगवते वासुदेवाय ॥
ॐ नमो भगवते वासुदेवाय ॥ ११.३ ॥

Supreme Lord! Highest Spirit! It is even as You have described Yourself. Yet I would like to see this lordly form of Yours.

In every shloka Arjuna adds some more glories of God.

Parameshwara: means supreme Lord who sustains physical law of creation. It is also name of Shiva.

Purshottama: means supreme Lord. It is also name of Vishnu. It's philosophical significance is taught in chapter 15 on topic of Nirguna Brahman.

So Vyasa talks of Vishnu and Shiva as equals. So, O Krishna! whatever you are teaching me is perfectly understandable because it is a systematic teaching; if Bhagavan is the cause, and world is effect; the logical consequence that the effect cannot be separate from the cause; therefore the world cannot be separate from God. It is a very logical conclusion; and if the world is non-separate from God; all the non-glories of the world should naturally belong to the Lord; because of that, I have no resistance in accepting that teaching.

Arjuna says, I am able to intellectually understand that whole world is manifestation of God and that everything is holy. So there is no question of dividing world into acceptable and unacceptable. If I could see world as divine then I will not have Dvesha towards anything. However, the reality is that I have Raga and Dvesha. My intellectual and emotional personalities are not harmonized. I need them to be harmonized. What should I do to get it? I would like to have Vishwa rupa darshanam, while I am interacting with the world.

Dayananda swami beautifully says; we do not have a sacred-

secular division in our culture. In many other cultures, sacred is obtained in a temple while everything outside the temple is secular. However, for a Hindu or for a vaidhika, there is nothing called secular, everything is sacred; eating is puja; remember we are doing puja daily; eating is puja, brushing the teeth is puja; snanam is puja, everything that I do is puja and this puja occurs only when I always remember that I am in the presence of the Lord as Vishwa rupa. How can I have contact with that rupam; the vishvarupa Ishvara, you should help me. This is Arjuna's request, the details of which we will see in the next class.

Take away:

The mode of repetition of a Mantra with feeling and in a particular manner, a definite number of times, with right observances, until a fixed number of Japa is reached, in order to obtain substantial benefit out of the Mantra, is called Purascharana.

Vishwa rupa darshanam:

I have to learn to see the world in the form of god. I must assimilate the teaching that God is material cause of the universe and that he alone manifests as the universe as well or we can say God is both matter and spirit. Here, every vision in front of me is a different version of God. I should clearly understand this teaching and with this my perspective changes. This new perspective is called Divya Chakshu or the mystical eye.

With Best Wishes,

Ram Ramaswamy

Mandukya Upanishad, Class 18: Chapter 1 Summary

Swamiji gave his summary of chapter 1 also known as Agama Prakaranam, today. In introduction to this Upanishad he had previously indicated that it has four chapters in it.

The first chapter is called agamaprakaranam. This chapter contains the entire Upanishad and 29 karikas. The second chapter is called Vaitathyaprakaranam containing 38 karikas on the mithya nature of the universe. The third chapter is titled Advaitaprakaranam containing 48 karikas dealing with the non-dual nature of atma. The fourth chapter is called Alatahantiprakaranam containing 100 karikas, which clear all the possible objections to the teaching contained in the Upanishad.

Of the four chapters the first one, agama prakaranam, consists of 12 mantras of the Upanishad and the 29 Karikas written by Gaudapada. The 12 mantras belong to Atharvana Veda and are supposed be revelations by God himself. Shankaracharya's guru's guru, Gaudapada, however, wrote Karikas. Karika means a commentary in verse. Among the 12 mantras and 29 karikas, prominence is given to the 12 mantras since they are from Upanishad and it is the focus of chapter 1 and is of importance from a Vedic perspective. Chapters 2, 3 and 4 are all about Karikas.

Gist of the Upanishad portion or Mantras of Chapter 1:

Mandukya Upanishad was revealed through Manduka Rishi in the Atharvana Veda.

The first two mantras introduce two types of Vicharas:

1) Chatushpada Atma Vichara or the four facets of Self.

2) Second enquiry is Chatur matra Omkara Vichara. It has four sounds of Omkara.

Both the Atma Vichara and Omkara Vichara are performed to arrive at the absolute reality.

Mantras # 3 through # 7 deal with Chatushpada Atma Vichara. The essence of these mantras is that they are talking about the four aspects of "I" the Atma.

Mantras # 8 through # 12 deal with Chatur matra Omkara Vichara.

Discussing Mantras # 3- # 7, the following points were made:

1. The first I, is obtained in Waking state and is the "Waker I". I in waking state is endowed with various attributes such as weight, size, individuality etc. This is the "attributed I" in jagrit avastha. Here, I comes in contact with external world. It is a finite and limited I. This I is described in mantra # 3. This I also goes by the names of Vishwa and Virat.
2. The second I is obtained in dream state or the dreamer I. I functions through the projected dream body; the sukhma shariram with attributes determined by dream body. The second and Saguna I, is in the dream state. This I is also finite and limited. This I is also called Taijasa and Hiranyagarbha.
3. The third I is obtained in sleep state. Here, I am not in waking or dream body; here body is in resolved condition. Sleeper I is also an "attributed I". In sleep all attributes are in dormant state or in their potential state. Thus, the "Father I" during the waking and dream states is in a dormant state here. All attributes are dormant as well. It is also a state that is limited and finite. Here limitations are also in dormant condition. The sleeper I is called Pragma and

Ishwara. These are technical names given by Upanishad. This is addressed in mantras # 5 and # 6.

4. My fourth aspect is my real nature, the core nature, also known as Turiyam or Sakshi I. Thus, witness I is free from all attributes. It is the "attribute-less I" or nirguna I. It is described in the most important mantra # 7. This I is attribute-less and limitless. Thus, for every one of our assertions there are many negations. When I say, I am man; I am also saying I am not woman; not an animal; not a pencil etc; all negations. For one assertion there are many negations. Thus, attributes limit an object, while Turiyam is the limitless I. This is the essential I; it is Shantam; Shivam (ananda) and immortality; all three are possible only in Turiyam. So, if you want Shantam, Shivam and Immortality you have to know Turiyam for liberation.

How can I know Turiyam?

I can know Saguna I in waking state. I can know Saguna I in dream state; I can know saguna I in Sleep state, if so, in which state can I know nirguna I or Turiyam I?

If the three associations result in Vishva, Taijasa and Prajna, what is the Turiyam? What association does

Turiyam have? Turiyam is the name of the atma when it is dissociated from all the three states. I myself,

as consciousness principle, am Turiyam. How do I become Turiyam?

Now mantra # 7 does not talk of a fourth state at all; so where is nirguna I available? The Upanishad says, the nirguna I has to be discovered through the "attributed I" or Saguna I.

Turiyam is available in Vishva, Taijasa and Pragya states. So there is no need for a fourth state. So, remain in jagrat avastha, analyze and gain Turiyam.

If so, how do I arrive at nirguna I from Saguna I?

Swamiji says it is quiet simple, Saguna I minus gunas gives you nirguna I.

Thus, "Father I" minus fatherhood equals nirguna I. In this manner negate all attributes about yourself and it takes you to Turiyam I.

How do I remove the attributes?

Upanishad says you need not remove attributes at all. I, the consciousness, can never be associated with attributes; just as the light on the hand, does not take on the impurities of the body because light is asangaha. Similarly, I, the consciousness, am also free of attributes. Attributed I does not exist in reality. My thought that I have attributes was born out of my misconceptions. I have to know that I am attribute-less at all times. Citing an example, to illustrate the point, you see a movie on the screen and there you see the very dirty Cuvam River. You want to purify the screen. Swamiji says the screen is pure even when the dirty Cuvam is shown on screen. Screen is not touched by the movie. Therefore, I am the screen-like consciousness; I just have to know that I am free of attributes and knowledge removes these attributes. When I add attributes to waking state, I am Vishwa; when I, add attributes to dream state, I am Taijasa; and when I add attributes to sleep state, I am Pragya. However, when I remove these attributes from any or all of the three sattes, it is Turiyam.

Vishwa minus waking state attributes equals Turiyam.

Taijasa minus dream state attributes equals Turiyam.

Pragya minus sleep state attributes equals Turiyam.

So, Turiyam is obtained through knowledge. This knowledge of Turiyam is described in mantra # 7.

With this chatushpada Atma Vichara is over.

Mantras # 8 through # 12:

Chaturmatra Omkara Vichara is described. Omakra consists of A U M and the Silence that follows known as Amatra.

A is described in mantra # 9.

U is described in mantra # 10.

M is described in mantra # 11 and

Amatra is described in mantra # 12.

Having introduced each mantra, they can be equated to each Pada.

Thus:

A equates to Virat

U equates to Hirayagarbha

M equates to Ishwara

Amatra equates to Turiya atma.

Having equated one has to begin with upasana. First upasana is meditating on Virat in Akara; then meditating on Taijasa on U kara; and then meditating on Ishwara on M kara. To support meditation, common features were mentioned. They are:

Akara equation with Virat is based on pervasiveness and primacy both also called Apte and adimatvat, respectively.

Ukara equation with Hiranyagarbha is based on superiority and middleness; both also called Utkarsha and Ubhayata respectively.

Mkara and Ishvara equation is based on being similar to a measure and the ground of dissolution, both also called Mithi

and Apithi respectively.

Remembering the common features one has to perform each upasana. It will help cleanse the mind. The upasana also provides material benefits. How to perform the upasana has not been described.

Rather, we have to meditate on Omkara and dissolve A into U; U into M; and M into silence and reach the silence or consciousness.

How to perform this? Example of this resolution was discussed as resolving Bangle, Chain and Ring in gold.

How to arrive at gold?

Look at bangle and look there for an object called bangle. You will observe that there is no substance called bangle; there is only gold. You must be convinced that there is no Bangle. Once bangle, the substance has been negated, the word bangle has no more relevance. Without an object where is the need for a word to describe it. This is known as Padartha nisheda and pada nisheda. Thus Virat nisheda is Akara nisheda.

Then come to Chain. Going through same process as with bangle, we realize that there is no object called chain as such the word chain is also negated. Chain padartha is negated; Hiranyagarbha is negated; U kara is also negated.

Then coming to Ring and going through same process as for bangle we realize there is no substance called ring as such and there is no need for word called ring Thus, ring padartha is negated; Ishwara is negated; Makara is negated.

A (Virat), U (Hiranyagarbha), M (Pragya) all three are saguna Atma.

Pada-padartha division exists only in empirical field where time, space and attributes are there. It exists in saguna field alone. Once you negate everything you will feel

blankness. Buddhists call it Shunyam or void. Mandukya says, for “ nothing remains”, you still need a witness of nothingness, known as Shunya Shakshi or Chaitanyam or as per Vedanta, Consciousness. This consciousness illumines the presence or absence of everything. This was pointed out in mantra # 12. Now the Upanishad is over. Benefit of this knowledge is that: whoever knows this, can claim, I am Turiyam.

Karikas:

Gaudapada talks of common and uncommon features of padas.

1. Pragma, the I in sleep state, is associated with Ignorance (I).
2. Vishwa and Taijasa, both in jagrat and swapna avastha are associated with Ignorance (I) and Error (E).
3. Turiyam is associated with none of them.

Ignorance means, not knowing “ I am limitless”.

Error means the notion that “I am limited.”

Gaudapada uses different terms for Ignorance and Error.

Thus, agyanam, agrahanam, nidra, and karanam are the four names for ignorance. Ankuraha, anyathagrahanam, svapna and karyam are the four names for misconception or error.

Another topic is position of each pada. Gaudapada describes the Sthana Trayam as:

Vishwa is in right eye.

Taijasa is in mind

Pragma is in Hiranyagarbha.

Then he describes Bhoga Trayam as follows:

Vishwa has experience of gross world.

Taijasa has experience of inner world.

Pragya has experience of ananda or Sushupti.

The last topic is Omkara dhyanam. Gaudapada uses word Pranava to describe Omkara. In word Pranava, Pra means perfect; while navaha means, so named.

So pranva means ideal name, that is Om, which stands for Brahman. Why is Om ideal name for Brahman? Other names reveal saguna or nirguna aspects only once. Om is ideal as it reveals both Saguna and Nirguna Brahman.

Sound part of Om reveals Saguna Brahman. Silence between two Omkara's reveals nirguna Brahman. Saguna Brahman has three parts, Virat, Hiranyagarbha and Ishwara. Om also has three divisions, A U M. So every aspect of Brahman is revealed in OM, hence it is the Uttama Nama.

One has to practice Omkara dhyanam. In beginning focus on sound part, that also includes Virat, Hiranyagarbha and Ishwara. This is called Aparam Brahman.

Once you have advanced in meditation, move to silence and expand on it. Chant Om and dwell on silence. In silence reflect on teaching. Silence is Amatra; it is not blankness; it is absence of everything except the I, who am aware of the silence. The silence is Nirguna, Ananta etc. I have to see this as my swarupam. So it becomes swarupa dhyanam, which leads us to liberation. This concludes the 29 Karikas as well.

With Best Wishes,

Ram Ramaswamy
