

mithya.

In Karika # 8, we did make a change in sequence of Karikas to better address continuity of theme; here a questioner was asking as to why we can't take swapna prapancha as reality. Gaudapada refutes it by saying that whether dream is unique or not, dream depends upon the observer for its existence. Since the unique dream object depends on the dream observer, it does not have independent existence of its own and therefore it must be understood as mithya. There is no objective world existing. Ordinary and extraordinary all are dependent on subject.

In Karika # 7 another questioner says he agrees that swapna parapancha is unreal; but he says, I cannot accept Jagrat parapancha is unreal. His contention is as follows:

He disagrees with the definition that, "Whatever is impermanent or an object, is mithya."

He wants to give a changed definition wherein Swapna parapancha is shown as unreal while Jagrat prapancha is shown as real. He now suggests four definitions, in each of which, Swapna parapancha is shown as unreal while Jagrat prapancha shown as real.

Gaudapada refutes each definition. He says, you have to accept both as unreal or both as real; the idea that one is real while other is unreal will not work. We are working to define absolute reality, while you are defining relative reality or mithya, says Gaudapada.

In karika # 7, the first definition says that utility is a criterion; thus, whatever is useful is real. Therefore, since swapna is useless, it is unreal. Questioner says, I can't use the earning from dream state, but earnings from Jagrat avastha I can use.

Guadapada, refuting the definition says, utility of jagrat

prapancha is only a relative utility. It is useful only in jagrat avastha, only useful from point of view of jagrat shariram; it is useless in swapna. No food from waking state will be useful to satiate hunger in a dream.

Furthermore, Gaudapada says, it is wrong to state that Swapna prapancha is useless; it is relatively useful in swapna avastha while it maybe useless in jagrat avastha.

Guadapada says both are real in a relative manner.

So utility is for jagrat shariram in jagrat avastha only. Similarly, Utility is for Swapna shariram in Swapna avastha. But when I shift identification it is contradicted. Thus, when I shift from swapna to jagrat the earnings are of no use. Similarly when I shift from Jagrat avastha to Turiya, (consciousness), the earnings are also useless in Turiyam state. He says impermanence is only criterion for unreality.

Karika # 9 and 10:

वस्तुव्यतिरेकस्यैव तदवस्थानुसारं तदवस्थानुसारं
वस्तुव्यतिरेकस्यैव तदवस्थानुसारं तदवस्थानुसारं
वस्तुव्यतिरेकस्यैव तदवस्थानुसारं तदवस्थानुसारं
वस्तुव्यतिरेकस्यैव तदवस्थानुसारं तदवस्थानुसारं

In dream, also, what is imagined within by the mind is illusory and what is cognized outside (by the mind) appears to be real. But (in truth) both these are known to be unreal. Similarly, in the waking state, also, what is imagined within by the mind is illusory; and what is experienced outside (by the mind) appears to be real. But in fact, both should be rationally held to be unreal.

Karika # 9:

Here the questioner suggests a second, definition that proves that Swapna prapancha is unreal while Jagrat prapancha is real. He says Swapna parapancha is unreal because it is a

mental projection. Dream world is within my mind as a projection, hence unreal, while Jagrat parapancha is outside me. I experience everything outside me; the desk, the people, the hall, etc; it is not a mental projection. What is within is unreal while whatever is external in reality. Whatever is external is real and whatever is internal is mithya. Externality is the criterion for reality and internality is the criterion for unreality. He suggests dream world is unreal while this world is real.

Gaudapada says: you say swapna prapancha is inside; word inside is a relative one. If asked the question, are all of you inside or outside, what will be your answer? You will probably never answer; rather you will ask, inside of what? If I say it is about this stage where I am sitting, the answer will be it is outside. So one needs to know inside or outside of what? From which stand point? From waker's stand point it is outside. But in dream, you are performing all transactions with dream body, while waker's body is lying on bed. From dream body point of view, the dream world is outside of it; I don't even know I am dreaming; **dream itself is only from waker's point of view.**

Now suppose you wake up and your reference point changes. From waker's point of view Swapna parapancha is within. The same is story of Jagrat prapancha as well. Once you look at Jagrat prapancha from Jagrat body point of view it is outside hence real. But if you wake up from Jagrat prapancha to Chaitanyam, from point of view of Chaitanyam, Jagrat prapancha is also within. So, when you the change point of reference it becomes unreal; so it is a relative truth or mithya.

Karika # 10:

Suppose a person is in dream state, how to prove it is not dream until you wake up? In swapna prapancha also you talk of a world external to dream body, that you take it as real; thus you see a dream book, train, tiger etc; and they are all real.

In karika # 14, the questioner suggests a third definition of reality that says Jagrat prapancha is real while Swapna prapancha is unreal; he says whatever has an objective existence is real while whatever has subjective existence is unreal.

Elaboration of questioner's position:

Subjective existence means dependent on Me as long as I see it.

Objective existence means, it exists, whether I see it or not.

My house, my car, all I know exist. So, does my car exist outside? Car exists even when I don't see it. Whether I experience it or not, it exists. Object exists independent of me.

In dream, I see, I am saving a drowning person; just as I am about to bring him out, I wake up. Did he fall back in the well? But now, in the waking state, I am not worried about it anymore. You know he existed only in dream. So Swapna prapancha was subjective existence; it did not have a continued existence. Hence dream is unreal, as it has no objective existence. Thus, objectivity is criterion for reality. Subjective existence is criterion for unreality.

Gaudapada's rebuttal:

Gaudapada says this definition will not work. In dream you attend a class and you have parked the car. This swapna world, the dream, it is not just a projection of mind; it is a real world for the dreamer. Only on waking, Swapna Prapancha becomes unreal. Similarly, Jagrat prapancha is also unreal from Chaitanyam state's point of view.

So, object within you, in dream, have only a subjective existence, hence unreal. Whatever is outside is from dreamer's stand point of view. Upon waking, internal world and external

world, both in dream state, are proven as unreal. So, these internal external distinctions have nothing to do with reality. Both are falsified upon waking. In a similar manner Jagrat prapancha is also unreal once you wake up in Chaitanyam.

Hence the hypothesis that states objective existence is real and subjective existence is unreal does not have any merit.

Karika 15:

अन्तर्गतेषु च अन्तर्गतेषु च अन्तर्गतेषु च अन्तर्गतेषु च अन्तर्गतेषु च
अन्तर्गतेषु च अन्तर्गतेषु च अन्तर्गतेषु च अन्तर्गतेषु च अन्तर्गतेषु च

(Things) which are (experienced) within are not clear. (Things) which are (experienced) outside are clear. All of them are projected only. The distinction is due to a different sense organ.

The questioner poses his fourth definition. He says whatever is clearly experienced is real. Thus clarity of experience is real. Vagueness of experience indicates it is unreal. Everybody dreams. Some remember the dream and some do not. Even when you remember, it is vague; hence it is unreal.

Jagrat prapancha meanwhile is clear; hence it is real.

Gaudapada says this is a relative definition only. He says clarity depends on instrument used. The way you see depends on your organ of sight. With different set of organs, you will see differently. Some animals are color blind. If I have the sense organs of a dog, I will see everything vastly differently. If I have sense organs that can see at atomic level, I will see everything as atoms.

Dream world is very clear with dream sense organs; it becomes vague only with waker's sense organs.

If I should only have four sense organs, say like a blind person, the world of color will not exist for me. Imagine a

person with a sixth sense organ; he will see world very differently as it depends on all sense organs. Hence world is only a relative reality.

So, he says, that which is within us, in Swapna Prapancha, is vague, where as external world for dreamer is very clear, hence real, as long as dream continues. On waking up, the outside world becomes unreal.

Clarity and non-clarity depend on organs one uses. World of human beings is different from that of animals. Even world of man is different from that of a woman.

Take Away:

If so, when will you have final waking up? Ultimate reality is only when you arrive at “object less- subject” or Turiyam state.

Dream itself is only from waker’s point of view.

With Best Wishes,

Ram Ramaswamy

Baghawad Geeta, Class 143: Chapter 11, Verses 7 to 13

Shloka 11. 7:

सर्वज्ञोऽहं सर्वभूतानां महेश्वर इति मे मानसं ब्रुवत ॥
सर्वं भूतं भवति मत्तः सर्वं कर्मफलमपि मे ॥११.७॥

See now, O gudakesa, O Gudakesa (Arjuna), the entire Universe together with the moving and the non-moving, concentrated at the same place here in My body, as also whatever else you would like to see.

Continuing his teaching, Swamiji said, Arjuna asked for Vishwa Rupa darshanam. This darshanam involves two set of eyes; first the laukika chakshu and second the divya chakshu; Divya chakshu here means a purified mind, a mature mind, an informed mind, a religious

mind, also equally important a second invisible eye; which is figuratively presented as the third eye and in the Gita 11th chapter it is called divya chakshu. When both eyes, our normal vision combines with a pure mind, only then Vishwa rupa darshanam is possible.

Citing some examples, Swamiji says, even though Lord Rama was available to both Shabari and Ravana, Shabari got her darshanam as she had performed sadhanas for a very long time; however, even though Ravana saw Rama he did not see the divine in him, as he was not prepared with a pure mind. Lord's universal form is available to all of us, all the time; even so we don't feel its impact; hence most of us don't get the Vishwa rupa darshanam. So the defect is not in my normal vision but in my refined mind (divya chakshu). **The refined mind has to be free of kama, krodha, raga, dvesha, ahamkara and mamakara.**

So, Arjuna, Vishwa rupa darshanam is easiest as it is always in front of you. So, I, as the akasha, having the akasha as the body, am available in front of you and the whole creation is my shariram alone; you can see the Vishwa rupa right in front of you; O Gudakesha. Gudakesha means satva guna pradhana. Arjuna you can; it only requires some refinement, it is possible for you.

This vision includes all moving and nonmoving objects that

Sanjaya says, suppose the brilliance of a thousand suns rises simultaneously, that is the comparison for the brilliance of Vishva rupa Ishvara; it will be indescribable.

So that will be the brilliance; that will be the comparison for the brilliance of the mahatma; mahatma means Vishva rupa Ishvara; So that is the brilliance, it is indescribable. Mahatma Here means the infinite body that is the Lord

Shloka 11. 13:

संजय उवाच ॥ तदा तदा पश्यन् तदा तदा पश्यन् तदा तदा पश्यन्
तदा तदा पश्यन् तदा तदा पश्यन् तदा तदा पश्यन् ॥११.१३॥

At that time, Pandava saw there, in the body of the God of gods, the whole diversely differentiated Universe united in the one (Cosmic form).

Sanjaya continues; saying Arjuna saw everything in the infinite body of the Lord. It is divided in manifold forms; Arjuna saw in manifold forms in the body of the Lord. Yashoda also saw the whole universe in Sri Krishna's mouth. Sharira here is not the limited body rather it is the vast space itself.

Sanjaya reports that before obtaining the Divya Chakshu, Arjuna saw the world as a persecuting world; problematic world; unfaceable world, burdensome world. Now the very same world has become totally different and therefore after being blessed with Divya cakshu Arjuna saw the Vishva rupa.

Take away:

“It is better to have a heart without words rather than words without heart behind it.” This is the bhavana required.

Divya chakshu is the refined mind free of kama, krodha, raga, dvesha, ahamkara and mamakara.

With Best Wishes,

If, whatever is experienced by you is Mithya, what is Satyam? Shankaracharya says, whatever is not seen by you, is Satyam; if we can think of such a thing; it is non-existent. **He says, whatever is existent, but not experienced by you, is Satyam; that is the Experiencer, the Subject, is Satyam.** In both prapanchas, the objects are all Mithya. How do you say so? Shankaracharya does not provide an explanation for this.

Our reasoning for this is as follows. I have discussed it in my introduction to Mandukya Upanishad as well. **Whatever is an object of experience, its existence will depend on the Subject alone. Existence of subject, however, does not depend on Object.**

If there is an object that cannot be experienced by anyone, then you can't talk of existence of object. **Existence depends on Knowability and Knowability depends on Knower. So, existence of object depends on subject.**

Citing an example, suppose I dream that I am saving a drowning person and having partially saved him, I wake up. Now, do I worry about that partially rescued person? You know the object does not exist. Thus, object has dependent existence on subject. Subject has independent existence; it is not dependent on object. Vedanta says, whatever has independent existence is Satyam. While whatever has dependent existence is Mithya. Citing example of a pot, it does not have an existence separate from Clay; it is dependent on clay for its existence; in fact it is clay alone.

Shankaracharya says both Swapna Prapancha and Jagrat Prapancha are Mithya. This is the well-known reason.

Normally we say, when we see something, it is real. However, Shankaracharya says, when we see something, it is Mithya.

Karika # 6:

□□□□□□□□ □ □□□□□□□□□ □□□□□□□□□□ □□□□□□ □

That which is non-existent in the beginning and in the end, is necessarily so even in the present (in other words, in middle). Those (objects) are like illusions we see and yet they are regarded as though real

Second Reason:

Now Gaudapada gives the second reason why objects are Mithya. He says, whatever is finite (Anityam) is Mithya while whatever is Nityam (present in all three states of time) is Satyam. Tatva bodha also gives a definition that states that one that exists in all three states of time (past, present, future) is Satyam. Any finite object enjoys existence for a limited duration; namely after date of birth and before date of expiration; thus, a pot exists only during a limited duration of time.

If a finite object has limited existence, then its existence is not its intrinsic nature; it is only an incidental property.

Fire enjoys heat as it's intrinsic nature; hence it is always hot; conversely, water enjoys heat only for a limited time; hence its heat remains only for a limited time. Intrinsic nature is permanent while finite nature is limited.

Citing an example, a person wanted to remove the onion smell from an onion. He placed it in a chamber and did abhishekam of sandal wood paste and kalpuram for three hours; but at end of it, the onion still smelled as it was. Thus, Palandu does not lose its intrinsic nature. So, finite has only borrowed existence. Similarly, pot borrows existence from clay and when pot is destroyed it goes back to clay. Before its creation pot did not exist; in between it did exist. Gaudapada says, even during its brief existence the "Is-ness" does not belong to pot; it belongs to clay alone. **Thus, pot was not there, before or after or in-between; it has only a seeming existence; a**

in case of those residing in heaven. The dreamer, associating himself with dream conditions, experiences those objects just as a well-informed person goes from one place to another and sees the objects belonging to that place.

Swamiji said I will explain Karika # 8 first and then come back to Karika # 7.

Karika # 8:

Gaudapada has said Swapna prapancha is mithya as is Jagrat prapancha; two reasons are given for it. One reason is attributed to Gaudapada and another to Shankaracharya.

Now a student asks a question. In Student's vision Swapna Prapancha is real. Generally, Swapna is considered unreal; but there are some philosophers including those of Vishishta Advaita, who say Swapna Prapancha is real.

They say the vasanas formed in our jagrat avastha come up in Swapna. This philosopher says, I don't accept Swapna Prapancha as mithya as in dream; we do see unique things that we had not experienced in the waking state. Dream must be another unique different world of experience and so must be taken as satyam. Since the waking state is similar to dream, it must also be satyam. Some darshanas like vishishtadvaita hold that dream is not our mental projection but created by God for a particular jiva. Thus uniqueness is the criterion for reality. Waking and dream are both unique in their own way and both must be taken as satyam.

Gaudapada's answer is that uniqueness cannot be taken as criterion for reality. We do have several mental projections unique to us. If uniqueness is criterion for reality, whatever we uniquely project can be considered to be real. That is not so and the argument that uniqueness is the criterion of reality is simplistic. No one accepts dream as real. Whether dream is unique or not, dream depends upon the observer for its existence. Since the unique dream object depends on the

dream observer, it does not have independent existence of its own and therefore it must be understood as mithya. There is no objective world existing.

Even accepting Vasishtha advaitins assumptions, Gaudapada says Swapna Prapancha is Mithya. The reasons are as follows:

The type of world that we experience will depend upon the type of instruments that we use. Suppose we are using eyes, the world will be understood as the world of forms. The moment you remove the eyes and use only the ears, the world will be the world of sounds. Depending upon the instrument, the world will be experienced differently. If instead of a human body we have an animal body, this world experience will be unique to the animal body. Many animals cannot see colors and for them this world will be black and white only. **Vedanta says that we do not experience the world objectively but our experience depends on the instrument that we use.** The moment a human being gets a celestial body, he will experience a celestial world here and now. Citing the example: In heaven there are unique objects such as white elephant, special chariots etc. Even these are dependent on observer in heaven or heavenly observer dependent.

Gaudapada gives another example of experiencing different things in different places with the observer being the same. Just as a well-educated person travels from place to place experiencing different things in this earth itself, similarly, the jivatma travels from loka to loka experiencing different things in different births. All these experiences are dependent upon the observer for their existence and dependent upon the instruments of

Experience for their nature. Uniqueness cannot be the criterion for reality.

In karika the words Sthani means Observer and Dharma means dependent.

Shloka # 7: Another question comes up.

Previous student did not accept Swapna Prapancha was unreal. Now, a second student says, I am willing to accept Swapna Prapancha is unreal but I can't accept Jagrat Prapancha is unreal because whatever money I earn in dream, I don't find any utility at all; but I can't say that of Jagrat prapancha. In Jagrat prapancha the money is available and useful. So definition of reality has to be change.

His contention is that: Whatever is useful must be accepted as real. Utility must be a criterion for reality.

He also contends that whatever is useless, is unreal. Hence Swapna Prapancha is mithya while Jagrat Prapancha is real. This is question raised by a student.

Gaudapada refutes this by saying that this definition does not work.

He says waking state objects are useful in the waking state only. Dream objects are useless in the waking state but are useful in the dream state. In fact, dream objects alone are useful in the dream state; such as dream water, dream food etc. Each object is useful in its state and useless in the other state. Utility in the respective state is common to both waking and dream and uselessness in the other state is common to both. Therefore both states should be given the same status of reality. The utility of the waker's objects is falsified in dream. Thus, utility is not a criterion for reality. That which is beginning-less and eternal alone is real. Eternity is the criterion of reality. So the waking world is mithya.

Truth is that Reality is not relative. So swapna parapancha is unreal. Jagrat prapancha is also unreal even though it is useful in jagrat avastha. So utility is not a criterion for Reality.

With Best Wishes,

Bhagawad Gita, Class 142: Chapter 11, Verses 3 to 8

Shloka # 3:

शुभं त्वं त्वत्पदं त्वत्पदं त्वत्पदं
शुभं त्वं त्वत्पदं त्वत्पदं त्वत्पदं 11.3

Supreme Lord! Highest Spirit! It is even as you have described yourself. Yet I would like to see this lordly form of Yours.

Continuing his teaching, Swamiji said, Chapter # 11 is dealing with Vishwa Rupa Ishwara Darshanam. We should have a clear understanding of this Ishwara darshanam. It talks of a very thrilling, electrifying experience for devotees. Shabari waited for years for a glimpse of Sri Rama and at last when gets it and the great thrill she enjoys has been described. Similarly Thyagaraja also sings about Shabari's Darshanam of Rama. Similarly, Sri Krishna darshanam is also talked about. All darshanams are considered mystic ones.

Now, to have an experience, the object of experience must be available to me; also there must be an experiencer, who is prepared for the experience. Let us say I talk about Carnatic music; but unless the listener has some idea of Carnatic music he cannot enjoy my talk, as he is not prepared as a listener. Normally we focus on the object of experience and forget the experiencer. This is true of Ishwara Darshanam as well. Shabari got Sri Rama Darshana Ananda but it was not only due

to Sri Rama but also because Shabari was prepared for the darshanam.

How to prove this? Swamiji says, the very same Rama was available to Ravana as well but nothing happened. Object was available but subject was not prepared; Ravana's mind did not change even after darshanam.

So preparation on part of person is important else even god is helpless.

How about Kamsa? He too had Sri Krishna darshanam but he never changed one bit. Several Rakshasa's even used the darshanam for negative purposes; Basmasura is one that comes to mind. So, for Ishwara darshanam I need a tremendous amount of preparation.

Vishwa Rupa Ishwara is Lord in form of Universe. If you know it's meaning, you know he is right in front of you. God's first name in Vishnu Sahasra Nama is Vishwam. He is already available in front of me. If we don't get thrill of darshanam, it is because of non-preparedness of devotee. That preparedness is nothing but purity of mind, a mind without kama, krodha, moha, madha, lobha and matsarya. These are the obstructions to this darshanam. When the cataract of the obstacle of kama, krodha, ahamkara and mamakara impurities are removed, God need not come; I begin to appreciate the already available Vishvarupam.

Arjuna says, O lord, I understand you are jagat karnanm. I can understand intellectually that you are in all namas and rupas; but I don't get its impact.

So, what is missing? A prepared mind is missing and it is also known as Divya Chakshu. It is like one person is interested in Carnatic music but another person is not. So he asks Sri Krishna to help him get darshanam.

"In shloka # 3, you describe Vishwa rupa but nothing happens

to me. Where is the lacuna? I would like to see your Vishwa rupa", says Arjuna.

Shloka # 4:

सर्वत्रापि त्वं सर्वत्रोपस्थित इति ज्ञानं त्वत्त्वं
अस्मिन्मूर्खेऽस्मिन्मूर्खेऽस्मिन्मूर्खेऽस्मिन्मूर्खेऽस्मिन्॥११.४॥

So we have seen the object of perception is available, Vishva rupa and still if I do not see it, the defect must be only in the observer. There must be some problem with me; therefore I do not feel the divinity when I experience the world. And, therefore, O Sri Krishna, is it possible for me at all; to have that divinity or Vishva rupa darshanam, can you prepare me to have this darshanam? Please help me!

Purity of mind cannot occur overnight. It requires a lot of Karma yoga and sadhana and the transformation is slow; and it is not a revolution. Is there any method I can get this purity of mind, O Yogeshwara! asks Arjuna.

Shloka # 5, 6, 7 and 8:

सर्वं त्वं सर्वत्रोपस्थित इति ज्ञानं त्वत्त्वं
अस्मिन्मूर्खेऽस्मिन्मूर्खेऽस्मिन्मूर्खेऽस्मिन्मूर्खेऽस्मिन्॥११.५॥

The Blessed Lord said O son of Prtha, behold My forms in (their) hundreds and in thousands, of different kinds, celestial, and of various colors and shapes.

सर्वं त्वं सर्वत्रोपस्थित इति ज्ञानं त्वत्त्वं
अस्मिन्मूर्खेऽस्मिन्मूर्खेऽस्मिन्मूर्खेऽस्मिन्मूर्खेऽस्मिन्॥११.६॥

See the Adityas, the Vasus, the Rudras, the two Asvins and the Maruts. O scion of the Bharata dynasty, behold also the many wonders not seen before.

सर्वं त्वं सर्वत्रोपस्थित इति ज्ञानं त्वत्त्वं
अस्मिन्मूर्खेऽस्मिन्मूर्खेऽस्मिन्मूर्खेऽस्मिन्मूर्खेऽस्मिन्॥११.७॥

See now, O Gudakesa (Arjuna), the entire Universe together with the moving and the non-moving, concentrated at the same place here in My body, as also whatever else you would like to see.

□ □□ □□□ □□□□□□□□□□□□ □□□□□□□□□□
□□□□□□ □□□□□ □□ □□□□□□ □□□□ □□ □□□□□□□□□□□□□□11.8□□

But you are not able to see Me merely with this eye of yours. I grant you the supernatural eye; behold My divine Yoga.

Now, Sri Krishna answers:

Even though Vishva rupa is right in front of me, to get the impact of Vishva rupa darshanam, I should have prepared the mind, which I call, Divya chaksu or purification and purification is a very slow and gradual process. It involves a long religious life and it also involves following dharma or values of life. If devotion and values are not there, for such a mind, the benefit of Vishva rupa darshanam will not be available.

Here, Arjuna was lucky to have Sri Krishna in front of him. He requests a temporary purification of mind.

But the purification will only be temporary; it does not last like a dialysis. Similar temporary purification can even be obtained from a Mahatma.

Since this purification is artificial, its full benefit is not realized. So, later in Chapter # 11, when Arjuna gets the darshanam, he is not able to stand Vishwa rupa darshanam. He tells Sri Krishna, I don't want this Vishwa rupa darshanam. Only a truly purified mind can absorb such a darshanam.

So, Sri Krishna accepts Arjuna's request. Just as one needs a 3 D glass for some movies, Sri Krishna says, I will bless you with a Divya Chakshu so that you can see many of my forms, varied in nature; all divine; of different colors and shades.

When you will see rupa in many colors it is not a particular form, rather it is all forms and colors of universe, as all are Ishwara varnanam.

Citing an example Swamiji says, form does not belong to the bangle; it belongs to gold. Thus, Sri Rudram describes Shiva in many colors. This rupam is available to all cowherds. They are all the colors of Vishwa rupa Shiva. The green hairs of Shiva are the green trees. My mind should see it as Vishwa rupa darshnam. Thus, we see same colors, but we need to see them with a different attitude; it is like seeing a laddu from Tirupati, it becomes divine; it is appreciated by the mind that has devotion.

Vishwa rupa has many heads. All heads of peoples are the head of god.

Verities of devatas, representing natural forces are described next. The eight Vasus with different forms are Agni, Prithvi, Antarikhsam, Intermediary lokas, Vayu, Aditya, Chandra, and Stars. May you see the eight Vasus in Vishwarupa.

Twelve Adityas are the sun gods' different changing stages in the twelve months of the year. In each month he has different powers. May you see the Adityas as Vishwarupa.

Our ten sense organs and mind are called Rudra Devata. May you appreciate the Rudras.

Ashwini Kumaras are the ones presiding over Pranas. May you appreciate them as well.

Marut Devatas are different aspects of Vayu Devata. You have not noticed all of them as Vishwarupam.

And therefore rain is a wonder; earth is a wonder; Sun is a wonder; anything you take it, is a wonder,

it is the glory of the Lord. May your see that; temporarily drop your day-to-day business; temporarily keep your cell-

phone somewhere. After its (cell phone's) coming, there is no time for anything; so wherever you go drop it; and just watch the universe.

So in Me the Vishva rupa Ishvara; whose body is the very sky itself, see the entire universe.

When Yashoda asks Sri Krishna to open his mouth she saw all the 14 Lokas; and then she said, shut up. She was not prepared. Sri Krishna is blue as sky; it means vast blue sky is a form of Sri Krishna, with galaxies floating in it. The whole universe is contained in Me.

Last week or so, some student; I do not remember who that student is, gave a cutting; so I just read through it; it is a very interesting write up, I will read only the first paragraph alone. It describes the Universe.

It says, consider a puff of dust a meter in diameter. Consider every grain of dust is a galaxy with many stars. We live near an ordinary star and are member of an ordinary galaxy. Every night we are shown that the universe has a beginning but most of us simple regret, use or enjoy the dark without perceiving that; it brings knowledge; If you are willing to learn from darkness, he says; even though so many stars are there; between the stars there is a vast emptiness is there. Think what must be the size of the universe; which accommodates all these galaxies and stars. This universe, with vast emptiness and galaxies are accommodated in space; so what must be size of the space; and that space is the

size of the Lord; Meditate upon that, Try that.

With Best Wishes,

Ram Ramaswamy

Mandukya Upanishad, Class 20

Greetings All,

Continuing his teaching, Swamiji said, I said in last class in Vaithatya Prakaranam, Gaudapada establishes Mithyatvam of world. It is not directly mentioned but indirectly revealed through Prapancha Upashamanam. This method is called Shruti Pramanam or Shrutyartharthi pramanam; which means obtaining knowledge indirectly from scriptures.

What is reality can't be negated. We can't say world is not existing as we experience it everyday. That which is experienced, yet is not reality, is called Mithya. The English word closest to Mithya probably is unreal. Gaudapada establishes this mithyatavam from Prapancha Upashamanam.

Mithyatvam's closest example is dream. It is experienced by all of us. In dream we see that it is very real, giving us pleasure and pain. Dream also has utility value when we are actually in a dream; despite all this we know dream is not real. So best example for mithya is swapna.

In first three shlokas of this chapter Gaudapada establishes swapna is mithya. That swapna is mithya is established through Yukti, Shruti and Anubhava pramanam's and he does so systematically.

He uses Vyapti for generalization thus he says where there is smoke there is fire. The statement, "a mountain is on fire as it has smoke" is analyzed as shown below ,using Gaudapada's logic:

1. Mountain is the paksha or locus about which I make an inference.

2. Mountain has fire; it is called sadhyam or conclusion.
3. Because there is smoke, the indicator, it is also known as Hetuhu or the reason.
4. Drishtantaha: means an example, as in a yagashala; because it is in a yagashala that you get Vyapti Gyanam or knowledge for inference.

This method of logic is now used to show Swapna is Mithya. Vyapti here means knowledge of co-existence of smoke and fire. Here Vyapti is a generalization. When we see an object in jagrat avastha as real, we observe that the object requires an area and volume (space) for existence, also known as Uchita Desha in Sanskrit. Not only volume of space, every object also needs duration (time) for its existence.

Einstein talked of four coordinates, the fourth one being time, indicated by date of origin and expiration. Every object requires a time.

Existence of events also requires duration of time. In Gita classes a question comes up. Swamiji, you teach the 700 verses of Gita in five years or 250 hours, describing the teaching in battlefield; how did Sri Krishna teach all 18 chapters in the duration of a battle? The basis for this question is because every event requires a specific duration of time and if specific duration of time is not convincing, you tend not to believe it.

Conversely if you find an object or event without enough space or time we conclude that object or event is not a real thing. Hence, some say Gita was an invention of Vyasa, as there is a time and space issue. **They don't accept the teaching as real due to a lack of time requirement.**

When you see a reflection of an elephant in a mirror, mirror has flat surface and an elephant can't stand on a flat mirror. You accept elephant in mirror as mithya or unreal reflection, knowing a real elephant can't stand on the flat surface of a

mirror; so the elephant reflection is an unreal one as there is not enough space for an elephant to exist on the mirror. Thus, when sufficient space is not there, that event is mithya.

Applying this logic Gaudapada says, dream world is also mithya as it lacks time and space for dream to exist as reality. Hence dream is unreal. This is the beginning of Vaithatya prakaranam.

Karika # 1:

सर्वान्निद्रावयवानि शरीरेणैव निद्रायां स्थितानि ।
अत्रान्यत्रान्यथा न भवन्ति तेषामपि स्थानानि ॥ १ ॥

The wise declare all objects of the dream as illusory, they all being located within the body and also because of their being in a confined space.

This shloka logically establishes swapna prapancha as mithya. First logic is lack of space; like elephant in a mirror. Dream objects and events are subjective things within our minds, not outside it; else others in the world would also see your dream.

Thus, swapna objects are subjective things in my mind. In dream we see elephants although it requires not an ordinary amount of space. We can't accommodate an elephant, but we see elephant, moon, stars etc in dream space. So wise people say all objects in our dream are mithya. A special all pervading space is created within my head. Why is it unreal? It is because all objects reside within myself. What is wrong with it? The space within me, within my head is limited or insufficient for a real elephant, or a mountain etc., to exist. Now in next shloka he talks of events that also are mithya as they occur in insufficient space.

Shloka # 2:

On account of the shortness of time, it is not possible for the dreamer to go and see the dream objects. Nor does the dreamer when he wakes up, indeed find himself in all the places seen in the dream.

Yukti pramanam: (by joining together)

In previous shloka “things” were proved as unreal in dream. In this shloka “events” are shown as unreal in dream. Consider a dream trip to Mansarovar. You have to reach an airport, then fly and then trek to mansarovar; but duration of a dream-time is only about 8 hours during your sleep time. Within the span of a dream, during our sleep, we manage to see events such as our marriage, children and even grand children. They say an actual dream only lasts only for about a minute and a half. So, all events are unreal as there is not sufficient time. So, he really does not go to mansarovar. They are all unreal projections of our mind.

Keep in mind that we are accepting it all as unreal in our waking state; in dream state we will not accept our dream as unreal. People pray before going to bed so that they don't get bad dreams. Why this worry; because our dream experience is very real, during our dream. Vedanta says our waking state is also a mithya. Thus we get Yukti pramanam. Thus, mirror located elephant yukti pramanam is over.

Pratyaksha Pramanam:

(perception)

In second line of this shloka we get Pratyakhsa pramanam from our experiences. Suppose in dream we went to Kashi; we saw many cows there; and one cow pushes you and you wake up. If it was a real cow you should have woken up in Kashi, but reality is that you woke up in Chennai. From this it is clear we never

संसारं जगत्सर्वं मया दृश्यते नित्यं ।
सर्वं जगत्सर्वं मया दृश्यते नित्यं ।

Different objects cognized in dream are illusory because they are being perceived to exist. For the same reason the objects seen in the waking state are also to be considered as illusory. Just as in the waking state, so also in the dream, the nature of objects remains the same. The only difference is the limitation of space in case of dream objects, they being seen in the within.

With first three shlokas first topic that swpana Prapancha is mithya, is over. From shlokas 4 through 18, Gaudapada is going to give us a shocking revelation. Our normal thinking is that this world is real while dream world is unreal; this is your assumption, says Gaudapada. **He says, even the Jagrat prapancha is unreal.** This has to be very carefully understood and assimilated or it can cause confusion.

When we say dream is unreal, we say this after waking up, as a "Waker". So it is a Waker's point of view. However, in dream, from dreamer's point of view, dream is very real; as whatever happens in dream affects the dreamer. When a dog bites the dreamer, he will feel it and go to a dream doctor and take dream medicine and even pay in dream money. So, one has to think from an appropriate point of view.

Citing an example, a man drank too much at a pub and started seeing double. He asked owner how much he drank. Although he drank only one bottle, pub owner with an intention to cheat said you drank two bottles; and since he was seeing doubles anyway, he said you have to pay for two bottles at Rs 100 each. The drunk took out a hundred-rupee note and said it was Rs 200 for the two bottles; he was still seeing doubles.

Similarly, for dream body, dream world is very real. So also from waker's point of view this world is very real. **Once you wake up, the dream world is now mithya. Similarly, once you**

shift to Turiyam standpoint, jagrat avastha is also mithya. Thus, Swapna prapancha is real for swapna shariram while Jagrat prapancha is real for sthula shariram. Both are in fact “unreal” in respective jagrat and Turiyam states.

Therefore wise people declare world is Mithya in jagrat avastha, as well. So jagrat prapancha is exactly like dream world. Is there any difference between two states? Between mithya jagrat prapancha and mithya swapna prapancha, Jagrat prapancha is outside of body while swapna prapancha is inside body. The common factor between both states is Mithyatvam.

I accept Swapna prapancha as mithya as it does not have time and space. But Jagrat prapancha has enough time and space; if so why is it Mithya?

Take Away:

“ Experience does not prove reality” is the lesson of Upanishad. Gaudapada shakes us even further with his declaration that, “ Whatever you experience is not real. There is only one reality, the “ Subject” alone is real.”

Once you wake up from dream, the dream world is now mithya. Similarly, once you shift to Turiyam standpoint, jagrat avastha is also mithya.

With Best Wishes,

Ram Ramaswamy

Baghawad Geeta, Class 141: Chapter 11, Verses 1 to 3

Continuing his teaching, Swamiji said, having completed chapter 10 known as Vibhuti Yoga, now we are entering Chapter 11 known as Vishwarupa darshana yoga. The word yoga attached to each chapter refers to the episode or the topic. So vishvarupa darshana yoga means the episode, which deals with vishvarupa darshanam. It means Vision of God as Vishwa rupa. What is Vishwa rupa? Rupa means form and Vishwa means world, or Lord whose form is the very universe itself. Then the question comes up, how to get such a vishwa rupa darshanam? When a devotee wants to see God such as Rama, Krishna or Devi, scriptures tell us how to get that darshanam. **Scriptures prescribe tapas or meditation or concentration. The devotee decides which form he wants to see. Then he concentrates on that form as per dhyana shloka. He has to learn the dhyana shloka to be able to concentrate on that form.**

He has to visualize that particular form and generally a mantra is also taught, just as narada taught mantra to Dhruva, Prahlada etc. and the devotee has to do the Purascharanam of that mantra; Purascharanam means you find out how many letters are there in that mantra; say if there are six letters, you multiply it with as many lakhs; say if it is Gayathri mantra with 24 letters then japa is performed either for 24 lakhs times or 24 crore times. So you do dhyanam; you do Purascharanam, as described in the scriptures; and if a person follows this kind of tapas, the shastras prescribe that the devotee will have the darshanam of the Lord in that particular form.

This is not our mental projection, but the Lord himself through his maya Shakti gives darshanam, in a particular form, to the Devotee. And this exercise is called Devatha sakshatkarah.

Thus devotees such as Tyagaraja and Meera have had darshanam of Rama, Krishna, respectively. Now the question is if he wants to have a vision of God as the world itself, how to do it?

Do we have to invite god to come in form of Vishwa rupa; if so, we have not understood the meaning of Vishwa rupa darshanam. Vishwa rupa means I want to see God as world, but I can't invite him in this form as he is already in this form. What then should I do to obtain darshanam in the form of the world?

There is only one answer. I have to learn to see the world in the form of god. I should learn that this very world is Ishwara, and then Ishwara alone is giving darshanam to me in the form of the world. There is no other method.

Japa mantras are for Rama, Krishna darshanam, not for Vishwa rupa darshanam. If so, how do I train myself? Here again there is only one method; I must assimilate the teaching that God is material cause of the universe and that he alone manifests as the universe. Here, every vision in front of me is a different version of God. I should clearly understand this teaching and with this my perspective changes. **This new perspective is called Divya Chakshu or the mystical eye.**

Citing an example, some one gives you a laddu and then tells you it is from Tirupati temple; then immediately your perspective changes; you now, consider the laddu a prasadam and you first apply it to your eyes before eating it. The status of prasadam is not physically evident; it comes from understanding that the laddu is from Tirupati. **This prasada is adrishtam or divination of laddu through a change in perspective.**

This is the idea communicated by Sri Krishna here. He teaches us as to how to look at world as divine; then I will see that god is giving darshanam all the time, to us.

Sri Krishna says it is better to have God's darshanam 24 hours rather than one, which comes and goes (Aya Ram Gaya Ram). This nithya ishvara sambandha is Vishwa rupa darshanam obtained by a change in perspective through the teaching.

So Vishwa Rupa darshanam is not like Rama, Krishna darshanam. Here you see God everywhere as described in Chapter 11.

Shloka # 1:

शुभं कथयस्व मया श्रुतं
वैश्वरूपं त्वया श्रुतं
वैश्वरूपं त्वया श्रुतं त्वया श्रुतं त्वया श्रुतं
वैश्वरूपं त्वया श्रुतं त्वया श्रुतं त्वया श्रुतं 11.1

By the words You have spoken, supreme, occult and spiritual, in order to bless me, this delusion of mine has gone.

Here Arjuna addresses Sri Krishna. In the first eight verses, we get an introduction to the topic of Vishwa rupa Darshanam and it begins with the Arjuna's summarization and what he has learned in the previous 10 chapters

In two shlokas he summarizes his learning so far. In shloka # 1 he summarizes chapters 2 through 6 that he says is essence of Jiva rupa varnananam or essential nature of Jiva. Physical body is only a temporary dress, which will be shed at death. Similarly mind is also a temporary instrument that I use in waking and dream states but shed in sleep.

Therefore neither body, am I; nor am I the mind; but I am of the nature of chaitanyam; the consciousness principle. And do you remember the description of consciousness I have given. Consciousness is not a part, product or property of the body; consciousness is an independent entity which pervades and enlivens the body, consciousness is not limited by the boundaries of the body; and consciousness survives even after the fall of the body; that eternal all-pervading consciousness is my nature. Sri Krishna gave a brilliant description of this essential nature of Consciousness, in the 2nd chapter from the

12th shloka, up to shloka No.25. Then he talked about that in the 3rd chapter, in the 4th chapter and in the 5th chapter.

Thus, in Chapter 2, shlokas 12-25, Consciousness is the focus. In Chapters 3, 4, 5, nature of Jiva is presented. Arjuna says I have understood all that very well.

Teaching given by you, purely for blessing me, is for saving me from sorrow (Arjuna Vishada Yoga). They are most sacred words that reveal atma, the reality. They are greatest secret not easily available in the world, from a rare Gyani. The words are spiritual teachings. Through this teaching my delusion is gone.

So you should remember the context of the Gita teaching; Arjuna surrendered to Lord Krishna due to his confusion. On one side, my mind says killing my kith, kin and Guru is not OK, but on the other side I can kill for protection of dharma. Now my doubts are getting cleared regarding confusion as to what is right and wrong. It is confusion about ethics and philosophy. Gita deals with ethical and philosophical confusion.

Normally the veda purva bhaga is meant to resolve

ethical conflict; veda antha bhaga is meant to resolve philosophical confusion. Gita is a unique Shastra, which deals with ethical conflict; as well as philosophical confusion. And therefore Arjuna says; I am getting clearer and clearer.

Shloka # 2:

ॐ नमो भगवते वासुदेवाय ॥
ॐ नमो भगवते वासुदेवाय ॥ ११.२ ॥

About the birth and dissolution of beings I have heard from You at length, O Lotus eyed one! As also about your immense grandeur.

Arjunas reverence for Sri Krishna as a teacher is increasing.

The word Kamalapatra in shloka means God with Lotus Eyes or eyes like lotus petal that describes God's inner beauty. This was dealt with in Ishwara swarupa chapters 7-10. Chapter 8 is an odd man out. You defined God as jagat karanam. You defined God as material cause of universe. Out of god alone universe comes, rests and resolves; that is Srishti, Sthiti and Laya Karanam. Everything comes from you alone. If waves are born from ocean and resolve in ocean, then there is no separate wave from ocean.

All the things and beings; this whole creation of things and beings is from you alone, as the very adhara, as the very ashraya. That means what? If waves are born out of the ocean and resolves into the ocean, it means there are no waves separate from the ocean; in fact wave is only an additional name given to the very ocean itself; similarly the whole creation is like a wave in the ocean of God. Shankaracharya beautiful presents in atma Bodha that the entire cosmos of several billions of galaxies is nothing but bubbles; so each galaxy can be compared to a small bubble and all these bubbles of galaxies are rising from you; and there are no bubbles separate from ocean. Similarly there is no creation separate from God or to put in another language; God is in the form of world, I heard this very clearly, and how did you teach, very elaborately. The upanishadic teachers are not detailed; rather they give the srishti and all within a few mantras.

The teaching is also for a madhyamadhikari such as me. In chapter 10 you also revealed your glories, Vibhutis, spread all over the universe. These glories are in exhaustible, the Vishwa rupa mahima. Mahatyam and Vibhuti mean the same. The proof is that my delusion is almost gone. It finally goes away completely in chapter 18.

If delusion is gone what is Arjuna's next question?

Shloka # 3:

there is nothing called secular, everything is sacred; eating is puja; remember we are doing puja daily; eating is puja, brushing the teeth is puja; snanam is puja, everything that I do is puja and this puja occurs only when I always remember that I am in the presence of the Lord as Vishwa rupa. How can I have contact with that rupam; the vishvarupa Ishvara, you should help me. This is Arjuna's request, the details of which we will see in the next class.

Take away:

The mode of repetition of a Mantra with feeling and in a particular manner, a definite number of times, with right observances, until a fixed number of Japa is reached, in order to obtain substantial benefit out of the Mantra, is called Purascharana.

Vishwa rupa darshanam:

I have to learn to see the world in the form of god. I must assimilate the teaching that God is material cause of the universe and that he alone manifests as the universe as well or we can say God is both matter and spirit. Here, every vision in front of me is a different version of God. I should clearly understand this teaching and with this my perspective changes. This new perspective is called Divya Chakshu or the mystical eye.

With Best Wishes,

Ram Ramaswamy

Mandukya Upanishad, Class 18: Chapter 1 Summary

Swamiji gave his summary of chapter 1 also known as Agama Prakaranam, today. In introduction to this Upanishad he had previously indicated that it has four chapters in it.

The first chapter is called agamaprakaranam. This chapter contains the entire Upanishad and 29 karikas. The second chapter is called Vaitathyaprakaranam containing 38 karikas on the mithya nature of the universe. The third chapter is titled Advaitaprakaranam containing 48 karikas dealing with the non-dual nature of atma. The fourth chapter is called Alatahantiprakaranam containing 100 karikas, which clear all the possible objections to the teaching contained in the Upanishad.

Of the four chapters the first one, agama prakaranam, consists of 12 mantras of the Upanishad and the 29 Karikas written by Gaudapada. The 12 mantras belong to Atharvana Veda and are supposed be revelations by God himself. Shankaracharya's guru's guru, Gaudapada, however, wrote Karikas. Karika means a commentary in verse. Among the 12 mantras and 29 karikas, prominence is given to the 12 mantras since they are from Upanishad and it is the focus of chapter 1 and is of importance from a Vedic perspective. Chapters 2, 3 and 4 are all about Karikas.

Gist of the Upanishad portion or Mantras of Chapter 1:

Mandukya Upanishad was revealed through Manduka Rishi in the Atharvana Veda.

The first two mantras introduce two types of Vicharas:

1) Chatushpada Atma Vichara or the four facets of Self.

2) Second enquiry is Chatur matra Omkara Vichara. It has four sounds of Omkara.

Both the Atma Vichara and Omkara Vichara are performed to arrive at the absolute reality.

Mantras # 3 through # 7 deal with Chatushpada Atma Vichara. The essence of these mantras is that they are talking about the four aspects of "I" the Atma.

Mantras # 8 through # 12 deal with Chatur matra Omkara Vichara.

Discussing Mantras # 3- # 7, the following points were made:

1. The first I, is obtained in Waking state and is the "Waker I". I in waking state is endowed with various attributes such as weight, size, individuality etc. This is the "attributed I" in jagrit avastha. Here, I comes in contact with external world. It is a finite and limited I. This I is described in mantra # 3. This I also goes by the names of Vishwa and Virat.
2. The second I is obtained in dream state or the dreamer I. I functions through the projected dream body; the sukhma shariram with attributes determined by dream body. The second and Saguna I, is in the dream state. This I is also finite and limited. This I is also called Taijasa and Hiranyagarbha.
3. The third I is obtained in sleep state. Here, I am not in waking or dream body; here body is in resolved condition. Sleeper I is also an "attributed I". In sleep all attributes are in dormant state or in their potential state. Thus, the "Father I" during the waking and dream states is in a dormant state here. All attributes are dormant as well. It is also a state that is limited and finite. Here limitations are also in dormant condition. The sleeper I is called Pragya and Ishwara. These are technical names given by Upanishad.

This is addressed in mantras # 5 and # 6.

4. My fourth aspect is my real nature, the core nature, also known as Turiyam or Sakshi I. Thus, witness I is free from all attributes. It is the "attribute-less I" or nirguna I. It is described in the most important mantra # 7. This I is attribute-less and limitless. Thus, for every one of our assertions there are many negations. When I say, I am man; I am also saying I am not woman; not an animal; not a pencil etc; all negations. For one assertion there are many negations. Thus, attributes limit an object, while Turiyam is the limitless I. This is the essential I; it is Shantam; Shivam (ananda) and immortality; all three are possible only in Turiyam. So, if you want Shantam, Shivam and Immortality you have to know Turiyam for liberation.

How can I know Turiyam?

I can know Saguna I in waking state. I can know Saguna I in dream state; I can know saguna I in Sleep state, if so, in which state can I know nirguna I or Turiyam I?

If the three associations result in Vishva, Taijasa and Prajna, what is the Turiyam? What association does

Turiyam have? Turiyam is the name of the atma when it is dissociated from all the three states. I myself,

as consciousness principle, am Turiyam. How do I become Turiyam?

Now mantra # 7 does not talk of a fourth state at all; so where is nirguna I available? The Upanishad says, the nirguna I has to be discovered through the "attributed I" or Saguna I.

Turiyam is available in Vishva, Taijasa and Pragna states. So there is no need for a fourth state. So, remain in jagrat avastha, analyze and gain Turiyam.

If so, how do I arrive at nirguna I from Saguna I?

Swamiji says it is quiet simple, Saguna I minus gunas gives you nirguna I.

Thus, "Father I" minus fatherhood equals nirguna I. In this manner negate all attributes about yourself and it takes you to Turiyam I.

How do I remove the attributes?

Upanishad says you need not remove attributes at all. I, the consciousness, can never be associated with attributes; just as the light on the hand, does not take on the impurities of the body because light is asangaha. Similarly, I, the consciousness, am also free of attributes. Attributed I does not exist in reality. My thought that I have attributes was born out of my misconceptions. I have to know that I am attribute-less at all times. Citing an example, to illustrate the point, you see a movie on the screen and there you see the very dirty Cuvam River. You want to purify the screen. Swamiji says the screen is pure even when the dirty Cuvam is shown on screen. Screen is not touched by the movie. Therefore, I am the screen-like consciousness; I just have to know that I am free of attributes and knowledge removes these attributes. When I add attributes to waking state, I am Vishwa; when I, add attributes to dream state, I am Taijasa; and when I add attributes to sleep state, I am Pragya. However, when I remove these attributes from any or all of the three sattes, it is Turiyam.

Vishwa minus waking state attributes equals Turiyam.

Taijasa minus dream state attributes equals Turiyam.

Pragya minus sleep state attributes equals Turiyam.

So, Turiyam is obtained through knowledge. This knowledge of Turiyam is described in mantra # 7.

With this chatushpada Atma Vichara is over.

Mantras # 8 through # 12:

Chaturmatra Omkara Vichara is described. Omakra consists of A U M and the Silence that follows known as Amatra.

A is described in mantra # 9.

U is described in mantra # 10.

M is described in mantra # 11 and

Amatra is described in mantra # 12.

Having introduced each mantra, they can be equated to each Pada.

Thus:

A equates to Virat

U equates to Hirayagarbha

M equates to Ishwara

Amatra equates to Turiya atma.

Having equated one has to begin with upasana. First upasana is meditating on Virat in Akara; then meditating on Taijasa on U kara; and then meditating on Ishwara on M kara. To support meditation, common features were mentioned. They are:

Akara equation with Virat is based on pervasiveness and primacy both also called Apte and adimatvat, respectively.

Ukara equation with Hiranyagarbha is based on superiority and middleness; both also called Utkarsha and Ubhayata respectively.

Mkara and Ishvara equation is based on being similar to a measure and the ground of dissolution, both also called Mithi

and Apithi respectively.

Remembering the common features one has to perform each upasana. It will help cleanse the mind. The upasana also provides material benefits. How to perform the upasana has not been described.

Rather, we have to meditate on Omkara and dissolve A into U; U into M; and M into silence and reach the silence or consciousness.

How to perform this? Example of this resolution was discussed as resolving Bangle, Chain and Ring in gold.

How to arrive at gold?

Look at bangle and look there for an object called bangle. You will observe that there is no substance called bangle; there is only gold. You must be convinced that there is no Bangle. Once bangle, the substance has been negated, the word bangle has no more relevance. Without an object where is the need for a word to describe it. This is known as Padartha nisheda and pada nisheda. Thus Virat nisheda is Akara nisheda.

Then come to Chain. Going through same process as with bangle, we realize that there is no object called chain as such the word chain is also negated. Chain padartha is negated; Hiranyagarbha is negated; U kara is also negated.

Then coming to Ring and going through same process as for bangle we realize there is no substance called ring as such and there is no need for word called ring Thus, ring padartha is negated; Ishwara is negated; Makara is negated.

A (Virat), U (Hiranyagarbha), M (Pragya) all three are saguna Atma.

Pada-padartha division exists only in empirical field where time, space and attributes are there. It exists in saguna field alone. Once you negate everything you will feel

blankness. Buddhists call it Shunyam or void. Mandukya says, for “ nothing remains”, you still need a witness of nothingness, known as Shunya Shakshi or Chaitanyam or as per Vedanta, Consciousness. This consciousness illumines the presence or absence of everything. This was pointed out in mantra # 12. Now the Upanishad is over. Benefit of this knowledge is that: whoever knows this, can claim, I am Turiyam.

Karikas:

Gaudapada talks of common and uncommon features of padas.

1. Pragma, the I in sleep state, is associated with Ignorance (I).
2. Vishwa and Taijasa, both in jagrat and swapna avastha are associated with Ignorance (I) and Error (E).
3. Turiyam is associated with none of them.

Ignorance means, not knowing “ I am limitless”.

Error means the notion that “I am limited.”

Gaudapada uses different terms for Ignorance and Error.

Thus, agyanam, agrahanam, nidra, and karanam are the four names for ignorance. Ankuraha, anyathagrahanam, svapna and karyam are the four names for misconception or error.

Another topic is position of each pada. Gaudapada describes the Sthana Trayam as:

Vishwa is in right eye.

Taijasa is in mind

Pragma is in Hiranyagarbha.

Then he describes Bhoga Trayam as follows:

Vishwa has experience of gross world.

Taijasa has experience of inner world.

Pragya has experience of ananda or Sushupti.

The last topic is Omkara dhyanam. Gaudapada uses word Pranava to describe Omkara. In word Pranava, Pra means perfect; while navaha means, so named.

So pranva means ideal name, that is Om, which stands for Brahman. Why is Om ideal name for Brahman? Other names reveal saguna or nirguna aspects only once. Om is ideal as it reveals both Saguna and Nirguna Brahman.

Sound part of Om reveals Saguna Brahman. Silence between two Omkara's reveals nirguna Brahman. Saguna Brahman has three parts, Virat, Hiranyagarbha and Ishwara. Om also has three divisions, A U M. So every aspect of Brahman is revealed in OM, hence it is the Uttama Nama.

One has to practice Omkara dhyanam. In beginning focus on sound part, that also includes Virat, Hiranyagarbha and Ishwara. This is called Aparam Brahman.

Once you have advanced in meditation, move to silence and expand on it. Chant Om and dwell on silence. In silence reflect on teaching. Silence is Amatra; it is not blankness; it is absence of everything except the I, who am aware of the silence. The silence is Nirguna, Ananta etc. I have to see this as my swarupam. So it becomes swarupa dhyanam, which leads us to liberation. This concludes the 29 Karikas as well.

With Best Wishes,

Ram Ramaswamy

Bhagawat Geeta, Class 139: Chapter 10, Verses 35 to 42

Shloka # 35:

ॐ नमो भगवते वासुदेवाय ॥
ॐ नमो भगवते वासुदेवाय ॥ १०.३५ ॥

I am also the Brhat-sama of the Sama (-mantras); of the metres, Gayatri. Of the months I am Marga-sirsa, and among seasons, spring.

Continuing his teaching, Swamiji said, Sri Krishna, enumerating the glories of Ishwara in shloka # 35 said, “ I am Sama among Vedas; I am Gayathri among mantras.” Gayathri is a representative of Vedas. Veda is also called Brahman. That is why Gayathri Upadesha is called Brahmupadesha or Veda Upadesha. In Chandogya Upanishad, Gayathri is presented as Brahman for meditation. Brahma sutra also analyzed it, as well. The mantra occurs in Rg, Yajur and Sama Vedas, as well.

Among all months I am the period between Dec 15- Jan 15, known as Margashirsha. This month is considered important because at that time land is full of crops, grains are plentiful, and prosperity on earth is high. Other commentators say that it is the dawn of the Devatas. Devatas one day equates to one year of human beings. The time before start of such a day is called Brahma Muhurtha. Brahma Muhurtha is a satvic period. Hence that month is important for spiritual practices.

Among six seasons I am Vasantha. The six seasons are: vasantha, varsha, sharat, hemantha, shishira and grishma. Vasantha Ritu is the period when flowers blossom and people are happy; the most pleasant season, when I am Kusumakaraha, meaning I am the abundance of flowers.

Shloka # 36:

ॐ नमो भगवते वासुदेवाय ॐ नमो भगवते वासुदेवाय

ॐ नमो भगवते वासुदेवाय ॐ नमो भगवते वासुदेवाय 10.36

Of tricksters I am the game of dice; of the vigorous I am vigor; I am victory, I am resolution; of the virtuous, I am virtue.

Dhyutam:

Among those activities that rob us of our discriminative powers, I am gambling. Gambling makes one addicted. Kalidevata resides in several places and deludes human minds says, Bhagavan. In entire Mahabharata the message is that if we are not careful, gambling can suck us down. Dharmaputra got hooked on it and lost his sense of propriety and lost his wife and brothers. He knew Dharma and yet lost his balance. In our younger days parents used to tell us not to play cards because of this.

Tejas:

I am internal brilliance amongst all brilliant people. Brilliance is one who resists temptations. It is easier to say no the first time as it becomes more difficult later. Therefore I am that brilliant discrimination that resists temptations.

Satva:

I am Satva guna among Satvic people. I am the satva guna, which represents spiritual inclination; rajo guna represents materialistic inclination; Artha-kama inclination is caused by rajo guna; Dharma moksha inclination is caused by satva guna; and tamo guna obstructs our inclination for both of them; tamo guna makes a person lazy with neither materialistic inclination, nor spiritual inclination.

Scriptures say Tamasic **person must cultivate material desires and then go to Spiritual desires.** That spiritual desire is

Satva Guna.

Vyavasayaha: means prayatna or effort. This effort is to fulfill spiritual desires. Thus Pancha Maha Yagna is important for Chitta Shuddhi. It is industry as a character of mind where I will lead one to victory or success.

Thus, Satva Guna triggers Vyavsayaha victory. I am That. If we get spiritual success we should not be arrogant as even that is due to the Lord. Pull of free will should be backed by Ishwara anugraha.

Shloka # 37:

Among members of the Vrsni clan, I am Vasudeva; among
pandavas, I am Arjuna. Among the contemplative sages, I am
Vyasa; among the seers, I am seer Usnaha. **10.37**

**Among members of the Vrsni clan, I am Vasudeva; among
pandavas, I am Arjuna. Among the contemplative sages, I am
Vyasa; among the seers, I am seer Usnaha.**

Among descendants of Vrishni's (Yadava Vamsha) I am Vasudeva.
One of Sri Krishna's names is Varshneya.

Why does he claim he is greatest here; because Sri Krishna is an avatara of God. Why is Sri Krishna most glorious among avataras? In Sri Krishna avatara alone God performs as a liberating Acharya, as Jagat Guru. Therefore Sri Krishna's teaching of the Bhagavat Gita is one of the three main textbooks of Vedanta shastra. These three books are known as Prasthan Trayam. First one, the Upanishads, is called the shruti prasthanam; the second one is bhagavad Gita called the smrti prasthanam; and the third one is brahma sutras, the nyaya prasthanam.

The Gita, even now is fresh and valid; it is not an obsolete textbook; rather it is a valid teaching; and since Krishna is the Gitacharya, he is the greatest one.

Among Pandavas I am Arjuna himself. Why is Arjuna the greatest

and not Dharmaputra? If Gita is the gretest shastra, Arjuna was the first receiver of this greatest teaching. He got teaching from Narayana himself. Why was Arjuna chosen for giving Gita teaching? Several reasons are given but most obvious one is that Arjuna asked Sri Krishna for the teaching.

Among Muni's, I am Vyasa Acharya. Why so? Sri Krishna is the greatest Acharya as he is a brahma vidya acharya. Among prastahna Trayam one contribution is by Sri Krishna and other of the Brahma sutra is by Vyasa. Vyasa, within Mahabharata, did even the compilation of Gita. He contributed to both Gita and Brahma sutra. During amaniavattam tarpanam there is a prayer offered to Krishnadvaipayana or Vyasa. Therefore, among Rishis, I am Vyasa. He got name Vyasa as he compiled the Vedas as well. He called four disciples and asked for their assistance. Vyasa's original name was Krishnadvaipayana; he was also called Vedavyasa and thus became known as Vyasa.

Among great seers, who can see all three kalas, I am Shukracharya; or Usana, the asura guru. Here Kavi does not mean a poet rather he is a Kranta darshi or one with ESP; who sees beyond sense organs.

Shloka # 38:

दण्डो दण्डितेषु तेषु तेषु तेषु तेषु
विजयस्य विजयस्य विजयस्य विजयस्य विजयस्य॥10.38॥

Of those who chastise, I am the rod; of those who seek victory, I am the tactics. Of secrets, I am the silence, and of the learned, I am knowledge.

Among disciplinarians or orderliness, I am Danda, the rod of punishment. The process of discipline can include: Requesting, education and punishment. Sri Krishna says generally people are immature and gross; and therefore education, good words, etc. do not work; generally, what works is, dandah or punishment.

O Arjuna! Wherefore should you know so much of all these? Encompassing this entire world by a fragment of My power, do I abide, eternally.

Sri Krishna says, Arjuna! you can look at all this from a different perspective as well. Thus water being present in every wave; bubble or drop is one way of looking at water. Really speaking, all waves, bubbles and drops are all in water.

In a similar manner the whole creation is in Me. I remain supporting this creation or another way of seeing it is, that this entire creation is in Me.

Space is not within this hall; that is not the correct statement; rather all the Halls are in space. Similarly Bhagavan is not in the living beings; but all living beings are in Bhagavan; and that too they do not occupy the whole Bhagavan; I am only sustaining them; in one corner of Me; So the whole cosmos is only occupying a part of Me; so how big I am; so the whole cosmos is like a bubble in Me; the ocean; So with this Krishna concludes the description of His glories.

Take away:

Tamo guna makes a person lazy with neither materialistic inclination, nor spiritual inclination.

A tamasic person must cultivate material desires and then go on to spiritual desires. That spiritual desire is Satva Guna.

With Best Wishes,

Ram Ramaswamy

Baghawat Geeta, Class 138: Chapter 10, Verses 33 – 35

Shloka # 33:

अक्षरानाम् अक्षराहं अक्षराहं अक्षराहं
समासिकस्याहमेव अक्षराहं अक्षराहं अक्षराहं॥१०.३३॥

Aksaranam, of the letters; I am the akarah, letter a. Samasikasya, of the group of compound words, I am the compund (called) Dvandva. Besides, aham eva, I Myself; am the aksayah, infinite, endless; kalah, time, well known as 'moment' etc.; or, I am the supreme God who is Kala (Time, the measurer) even of time. I am the dhata, Dispenser, the dispenser of the fruits of actions of the whole world, visvatomukhah, with faces everywhere.

Akshara:

Continuing his teaching, Swamiji said, we are seeing Sri Krishna continue enumeration of the glories of Ishwara. In Shloka # 33, he said that among Aksharas I am Aa. Sarasvati Devi is in the form of Alphabetic letters. Even among all letters Aa is most sacred. It is sacred because it is a basic letter that emerges from our mouth without doing anything to the mouth. Thus sounds such as E, U come about by some modification to the mouth whereas Aa is an effortless sound of the mouth. Akara is also a flexible sound that can be modified into other alphabets. Hence Aa kara is considered Karana aksharam, causal sound, while all other alphabets are considered Karya Aksharam, the effect. Vedas say that A Kara manifests as all other letters. It says all letters are a modification of Aa. In our tradition every alphabet has a presiding deity. The presiding deity of Aa is Brahmaji, the

Creator of the world. Since Aa is the cause of all letters, Sri Krishna says, I am letter Aa.

Samasha: Are compound words that are properly arranged. By compound words I save prepositions. Citing an example, in the sentence, I bought puja material really means I bought material for puja. Puja material is thus a compound word. Similarly, the sentence, I went to Shiva temple, really means I went to a temple where Shiva is worshipped. Similarly, Ganga water really means water from Ganga.

And how do you know what preposition is to be used; you know it from the context thus Ganga water means water from Ganga; Pooja material means material for pooja. And Adayar class does not mean classes

From Adayar rather it means classes conducted in Adayar. So in which place, which preposition is to be used, we get to know from the context.

Similarly, when I say I went to Birla Mandir, what I really mean is that I went to a temple built by Birla, which is the context.

This compound formation is very systematic. Four basic compounds are enumerated and these four are later expanded into 7 types of compound, then these types of compounds are further expanded into 35 types of compounds; Thus we have many compounds called samasaha; and these group of compounds are called

Saamasikam. Samasikam means samasanam samuham; the group of compound are:

tatpurusha samas; bahuvrihi samasa; karmadharaya samas; Dvigu samas; dvandva samas; avyayibhaava samas. In Sanskrit we can compound words, which can contain tens of words joined together. Thus, Kalidasa's Shyamala Dandakam has many samasaha words. Therefore, among compounds I am Dvanda

samasaha, says, Sri Krishna.

Kala Tatvam:

Sri Krishna says I am Kala Tatvam that puts an end to everything however kala itself has no end, meaning it is inexhaustible time. Even in pralaya, kala continues into the next creation. And because of the continuity of kala

alone, the next cycle of shristi is possible. Therefore Sri Krishna says I am the kala tatvam, which is inexhaustible.

Dhata: means karma phala dhata. One who gives appropriate karmas at right place, at right time, to right person, for all beings in the Universe. Sri Krishna says I am Karma phala dhata.

Vishvatomukhah

He also says, my face is turned in all directions, so I can see everywhere.

Shloka # 34:

ममैवाहं कालो जगद्विधायकः प्रसन्नोऽप्यसौख्यं च ।
ममैवाहं कालो जगद्विधायकः प्रसन्नोऽप्यसौख्यं च ॥ १०.३४ ॥

And I am Death, the destroyer of all; and the prosperity of those destined to be prosperous. Of the feminine (I am) fame, beauty, speech, memory, intelligence, fortitude and forbearance.

Mrtyu:

I am greatest robber, Kala, who will take away everything from a jiva. We can't take anything at time of death. What you can carry at death is only one's papam and punyam. Thus, death, or Yama, takes everything from you.

Citing a story, a man had a lot of property. He wanted to give it away. He challenged that one has to run as far as possible

from sunrise to sun set, the distance, in land, covered would be given as a gift to runner. One person took the challenge and ran; as he came to closer to sunset, he wanted to get more distance and ran the last few minutes very hard and in doing so, he collapsed and died. So, what happened to all the land he acquired?

So, I am destroyer, samhara tatvam, Says Sri Krishna.

Udbhava:

I am Udbhava, meaning source of future prosperity or wealth. The resource or source of all the future prosperity or future wealth; because if you have to

produce anything in future, they all must be there potentially; we can never generate anything if that provision is not there and Sri Krishna says that provision is myself.

Kirti, Sri, Nari, Smriti, Medha:

Female Devatas such as Mahalaxmi, goddess of wealth; Sarawati, goddess of knowledge and Parwati, Goddess of Shakti are called adhishtana devatas. Why do we have these devatas? Some universal laws govern everything. Such laws govern even our organs. These laws function because of an intelligent principle. For every government law too there is an officer required to maintain it. Any law is governed by an intelligent principle.

Thus it flows as follows: Higher Intelligence> Laws> Object.

Adhishatna devatas include Bhumi devata, alphabet devata etc are all aspects of Ishwara or God or Total intelligence.

So God for Kirti, name and fame, is called Kirti devata. Similarly we have Vak devata, Smriti devata, and Medha devata. Vedas have prayers for all such Devatas, thus there is a medha suktam.

Dhriti: means Perseverance or will power or continued effort despite failures. It is the resilience like a rubber ball that bounces back. There are several types of people. One who upon failing renounces every thing. The other type is a person, who upon failing, keeps trying again and again.

I am Dhriti says Sri Krishna.

Medha:

Medha means intelligence principle; we do not know why some brains are very intelligent and others not. So there are again laws governing this and that devatha is called medha devatha; and we have got Vedic prayers directed to medha such as medha sukhtam; a special prayer for medha devi;

Kshama: means Patience or the capacity to wait. It is often tested at traffic stops where we have to wait. I am Kshama says, Sri Krishna.

Shloka # 35:

ॐ नमो भगवते वासुदेवाय ॥
ॐ नमो भगवते वासुदेवाय ॥ १०.३५ ॥

I am also the Brhat-sama of the Sama (-mantras); of the metres, Gayatri. Of the months I am Marga-sirsa, and among seasons, spring.

Sama Mantra:

Among sama mantras, I am Brihat Sama, a mantra, a very suspicious one, glorifying the Lord. This mantra praises God; hence it is known as Brihat or infinite one. I am Brihat Sama mantra, says Sri Krishna.

Gayathri Mantra:

I am gayathri mantra among all Veda mantras, says Sri Krishna. The word Chandas has two meanings; one is it is a Vedic meter

and second one is, it is a Vedic mantra as well. Chandas provides rules of poetry. There are many chandas such as Anushtup, Trishtup etc.

Among Vedic mantras I am Gayathri. Gayathri has two meanings. Gayathri is a meter consisting of three lines, with 8 letters in each. Gayatri is also a mantra. Why is Gayathri glorius? **Its main glory is that it is Veda saraha.** Brahmaji wanted to take essence of vedas (Rg, Yajur and Sama) and he got gayathri.

Thus, we have:

Rg veda sara: Tatsavitha varenyam

Yajur Veda sara: Bhargo devasya Dhimahi

Sama Veda sara: Dhiyo yonaha prachodayat.

This mantra was originally called Savitri mantra. Savithri is name of Surya devata. It was set in gayathri meter hence it is called gayathri.

Also, Om Bhur Bhuvaha is not part of Gayatri mantra, it was added to aide the chanting of the mantra.

Since it is essence of Vedas, it is called Veda itself. Hence father teaches Gayathri to son and it continues on.

Gayathri mantra protects one from all papams or invisible negative effects. How come all people are not allowed to chant Gayathri?

Only one's who are initiated can chant Shrauta Gayathri.

Shrauta Gayathri is from Vedas.

Smartha gayathri can be chanted by anyone. Smartha Gayatri is from Smriti's.

Smartha gayatri is as follows:

yo devah savitasmakam dhiyo dharmati gocarah|

prerayet tasya yat bhargah tatvarennya mupasmaheh ||

Essence of Gayathri mantra:

The meaning is very simple: we are meditating upon the sacred effluence of Sun God.

And why are we meditating and worshipping Gayathri? What do we get out of it? Gayathri is that effulgence which activates our intelligence or buddhi. So therefore, I worship the solar effulgence, because it is supposed to activate my brain; my medha shakti increases, memory power increases; and that is why for brahmacharis, or students, gayathri was emphasized; because it gives every student memory power.

Gayathri activates buddhi shakti; and therefore Sri Krishna says, I am Gayatri Mantra; **if a person does not chant the gayatri; he loses all the advantages of being a vaidika purusha.**

And it is said in our tradition that without chanting gayatri; whatever other mantras one chants, they all will not be that effective; on the other hand, if he chants gayatri, then no other mantra is required at all.

And furthermore, gayathri itself is divided into two based upon how it is read; thus, one says, tat savithu varenyam while other says tat savithu vare niyam; Second one has 24 letters, while first one 23 letters. One with 24 letters is called gayathri. **Second one with 23 letters is called nichir Gayathri. During sandhyavandhanam; one is supposed to chant nichir gayathri;**

Margashirsha:

Among 12 months of the year I am Marga shirsha or the period from Dec 15 to January 15.

ॐकारं वाचं ॐकारं वाचं ॐकारं वाचं ॐकारं वाचं ॐकारं वाचं ॐकारं वाचं ॐकारं वाचं

The sound letter A helps the meditator to attain a well-developed waking personality (vishva). The meditator on U attains a well-developed Taijasa (mind and intellect) and for one who meditates on M reaches Prajna. In the “ soundless” state, after Mkara, there remains no attainment.

Swamiji said the Upanishad is analyzing Omkara from mantra # 8 onwards. The Upanishad talked about Omkara and A U M was equated to first three padas of atma. It also gave three Upanishads to practice for the unprepared students. Thus meditating on Akara symbolizes Virat, U kara symbolizes Hiranyagarbha and M kara symbolizes Pragya or Anataryami, respectively.

After practicing the upasana for some time one comes to Omkara Vichara and then resolves A U and M. An example of this process of resolution was provided by our discussion of Bangle, Chain, Ring and Gold. We found there is no substance called bangle, chain or ring respectively. We found that in all of them gold alone is the substance. This understanding that there is no bangle, chain or ring is called padartha-nisheda or negating substantiality of all three ornaments except gold. Padartha Traya Laya, this dissolution of all three, occurs by clear thinking. Once this dissolution occurs question may come up as to why when three padarthas are not there anymore why do we still have the three words? Now, existence of a word is relevant only if there is a corresponding object. First substance, bangle was negated; then we found there is no relevance for word ring as well and in a similar manner relevance of chain was also negated. Padatraya nisheda, means negation of corresponding words. Thus padartha and padatraya, that is all three padas (Virat, Hiranyagarbha and Pragya) and respective three matras (A U M, are negated and then only advaitam gold remains.

Similarly we have to negate sthula, sukshma and karana

prapanchas just as we did for padarthas. Once we negate three padarthas only Turiyam remains. There are no more sthula, sukshma, and Karana prapancha substances as well. The relevant words also have no more relevance; hence A U M also has no relevance. We have to keep in mind that A U M corresponds to sthula, sukshma and karana prapanchas. Thus A U M are also gone. What is left is Amatra the only substance or only truth of all three and this has to be revealed by an enquiry. This Amatra is now revealed in Mantra # 12.

Mantra # 12:

ॐ शब्दरहितं अक्षरं अविच्छिन्नं अविनाशकं अविनाशकं अविनाशकं

अविनाशकं अविनाशकं अविनाशकं

अविनाशकं अविनाशकं अविनाशकं

ॐ शब्दरहितं अक्षरं अविच्छिन्नं अविनाशकं

That which has no parts, the soundless, the cessation of all phenomena, all blissful and non-dual AUM, is the fourth, and verily it is the same as the Atman. He, who knows this, merges his self in the supreme Self, the individual in total.

By negating Prapancha Trayam we come to Turiyam. By negating Matra Trayam (Om-kara) we come to Amatra. Amatra is silence following Om. Amatra is the fourth matra. There is no dimension to this silence known as Amatra. This silence is also not finite like A U M. **Definition of Amatra: It is exactly same as Turiyam as defined in mantra # 7.**

As per this definition, Amatra or truth of Omkara, equals Turiyam, truth of universe. Also, Amatra is fourth part of Omkara even as Turiyam is the fourth pada of Atma. You can never talk about Turiyam and Silence.

When one talks, you know his language, but when a person is silent there is no language spoken; it is attributeless. It is free from pada prapancha, A U M. While Turiyam is free from

significance of Omkara, nothing else whatsoever should be thought of.

While writing his commentary Gaudapada consolidates his teaching of his previous karikas as well. He says, one has to clearly understand that the four padas of Atma equate with four matras of Omkara; thus every pada equates to a specific matra. Having clearly known Omkara and Atma, thereafter he should not have any other thought; he should arrive at Turiyam and abide in it.

(My Note: After understanding the four equations clearly, one should practice nididhyasanam with the Omkara mantra. Omkara can be used as a support for nididhyasanam. How do you meditate? Chant OM and

when you come to silence, you have to dwell upon the knowledge that there are two components in that

silence, one is silence and the other is consciousness. Then turn your attention from silence to

Consciousness then you claim that you are that Turiyam consciousness. This is called silence meditation.)

Karika # 25:

ॐकारं चिन्तयन् ॐकारं चिन्तयन् ॐकारं चिन्तयन् ॐ
ॐकारं चिन्तयन् ॐकारं चिन्तयन् ॐकारं चिन्तयन् ॐ ॐ ॐ

Soak the mind with the roar of AUM; Identify the mind with the sound of AUM; AUM is Brahman the ever fearless. He who is always unified with AUM shall know no fear whatsoever.

Having studied Mandukya and equating Omkara to the four padas of Atma, one must dwell on this through nidhidhyasanam.

Thus when one meditates on first pada Gross Cosmos comes up.

When he meditates on second pada Sukshma Prapancha comes up.

pervading, as it alone gives existence to all three ornaments.

Similarly the beginning, middle and end of creation are borrowed from Turiyam. Prana vaha means silence, awareness part of pranava. It is beginning, middle and end; this is true both spatially and time wise. Turiya Chaitanya is content of all. Owing up to Silence Awareness is Me. At that time there is blankness, there is stillness that is you, as witness of silence. I am that Chaitanyam, Instantaneously one becomes one with Turiya Chaitanyam.

Karika # 28:

ॐकारोऽस्यैव सर्वव्यापकः सर्वव्यापकः सर्वव्यापकः ॥
ॐकारोऽस्यैव सर्वव्यापकः सर्वव्यापकः सर्वव्यापकः ॥

Know AUM to be Isvara, the Lord, ever-present in the hearts of all; the man of discrimination realizing AUM as all-pervading does not ever grieve.

Om-kara has two meanings. Direct meaning is it is the sound of Om-kara; second meaning is the implied silence that follows Om-kara.

Silence is the consciousness that makes blankness known. Therefore, Om-kara implies Consciousness or it means awareness of Silence. It is Paramatma. Where is he, the paramatma, residing? Lord resides in mind of all and Om-kara consciousness is in mind of all, as witness of presence and absence of thought. So consciousness is all pervading. For one who can understand this there is no grief (samasara) in life. He is a Muk-taha.

Karika # 29:

ॐकारोऽस्यैव सर्वव्यापकः सर्वव्यापकः सर्वव्यापकः ॥
ॐकारोऽस्यैव सर्वव्यापकः सर्वव्यापकः सर्वव्यापकः ॥

One who has known AUM, which is moraeless and of multiple morae (meaning AUM which is soundless and of infinite sounds)

and which is ever peaceful because of negation of all duality in it, is the true sage; none other.

In this concluding karika Gaudapada reminds us of mantra number twelve's definition of Amatra.

Definition of Amatra: Amatra is one without any limitation; either related to space or time. A is limited; U is limited; M is limited; but Amatra does not have any limitation. In meditation we should not work for relative silence; here sound comes and it displaces silence. However, Vedanta says this is not the truth. The true silence is Chaitanyam that is absolute silence; which is free from duality. It is present in silence and sound. It is ever auspicious; it is never disturbed by sound, just as waker's silence is not disturbed by dreamer's noise. This person who recognizes Omkara in this manner is a real Seer, a wise person. With this the Amatra karika is over; Chapter # 1 is over; and Upanishad is also over.

Take Away:

Omkara meditation:

Chant OM and when you come to silence, you have to dwell upon the knowledge that there are two components in that silence, one is silence and the other is consciousness. Then turn your attention from silence to consciousness and claim that you are that Turiyam, consciousness. This is called silence meditation.

With Best Wishes,

Ram Ramaswamy
