Sadhana Panchakam – Class 6

Having discussed sravanam and mananam part of Jñāna yoga, Sankarachariyar is discussing nidhithyasanam which is meant to convert the knowledge into emotional strength. This is meant for Jñāna nishta. Nidhithyasanam is of two types:

1. Withdrawing from all vyākara and dwelling up on vedic teaching. This is sitting nidhithyasanam .
2. Always being alert in my day-to-day transactions. Being alert in my response to various situations, in the language I use in my transactions. Making sure that all my transactions are in keeping with vedantic teaching and not contrary to vedantic teaching. This alert life itself is a nidhithyasanam and is as important as the sitting nidhithyasanam. This is not confined to a particular time; it is through all my waking time.

When a person takes to nidhithyasanam, Sankarachariyar wants that person to note certain points. These are all values to be followed even before coming to Jñānam and values to be followed for gaining Jñānam. First, I follow them for Jñāna and thereafter I follow them for nishta.

1. Never argue with anyone, especially wise people. Because arguments can boost the ego. Also, we lose the opportunity to learn from wise people. Here we should

make the distinction between vadhaha and samvadhaha (student clarifying doubts with a teacher). How do we distinguish between the two? There are many differences between vadha (arguing) and samvadha (questioning):

1. When I argue with someone I look up on that person as equal or inferior to me. Whereas in samvadha, I don't look up on my teacher as superior to me, in knowledge, in maturity and in all aspect. There is a basic difference in attitude. This attitude is expressed by the very language and tone I use.
1. Often when I enter into an argument, I have made a conclusion on the topic. Through argument I want to either establish my conclusion or refute the other person's conclusion. Whereas in a student's approach, the student has never made a conclusion. His aim is not to establish his conclusion or refute teacher's conclusion; he just wants to learn. In one the mind is closed because the conclusion is already made, in the other the mind is open because conclusion is not made.
1. In argument, I try to talk more and more, and I don't allow the other person to talk at all. Even if the other person talks, I don't listen, and I interfere before he has concluded. Whereas the student talks the minimum; he wants to put his idea to minimum and he wants the teacher to talk more and more; when the teacher talks, he listens attentively and does not interfere.
1. In argument, since I have not listened to the other person, I have nothing to reflect up on. Whereas I am listening to the teacher, I work on what I listened.
1. There is a possibility that even after elaborate explaining, I am not convinced of teacher's conclusion. Politely I ask once more, and teacher explains once more and I am still not convinced.

I put off further questioning and think over the answers given. After giving enough time, I can raise the question. Whereas in argument, repeatedly arguing the same thing.

1. After samvadhā, there is no disturbance or bitterness in the mind, whereas after argument there is always bitterness and disturbance in the mind.

2. Be humble; amanithyam; make sure you don't become arrogant because of this knowledge. Constantly remove the arrogance.

Verse 6

Food is required for all states. Sankarachariyar discusses food for sanyasi, because grihastha gets food at home. He discusses food as though it is a disease. Hunger is also some kind of disease because you are not at ease:

1. For disease there is a remedy in the form of medicine; for hunger there is a remedy in the form of food.
2. When you take medicine, the aim is only to cure the disease. It is taken only when there is disease and only as much required to remove the disease. In the same way, you must take food, only when there is hunger.
3. Since I am taking the medicine only for the disease, I am not particular about the taste of the medicine. Likewise, the likes and dislikes of food should not be important.

So, you should treat the disease of hunger regularly. But you should not ask for delicious food, because it identifies with your tongue and results in you identifying with the sthūla śarīram. Put up with the opposite experiences like heat and

cold which are dependent up on desa, kala and prarabtha. These are the instructions for eating tongue. Now gives instructions for talking tongue:

1. Do not utter single word when it is not necessary to talk. Every word is spoken only after a well processed, well thought out and well monitored. All spiritual sadhanas begin with tongue – eating and talking tongue.
2. Even if you want to say something, make sure the other person has respect for your words and whether he wants your advice. Ensure that the other person values your advice. Example: Krishna advices Arjuna only after Arjuna requires it, Krishna starts Bhagwat Gita only in second chapter.
3. Don't join any group and have only good word for everyone. Everyone has good and bad parts, and I only talk about the good words for everyone, otherwise I observe silence.
4. Some people may be good to you and another set of people may be cruel to you. But don't develop raga because they are nice to and don't develop dwesha because they are not nice to you. Don't let their behavior generate raga or dwesha. Let their behavior be forgotten right then there. If they ill treat you, forgive them and forget. If they praise you, thank them, thank the lord and forget.

Verse 5

In previous verses Shankaracharya give supportive sadhanas for nidhithyasanam. The primary sadhana is dwelling up on teaching. If we follow these supportive sadhanas, mind will remain tranquil and ready for primary sadhana. Sit in a quiet place, fix your mind up on the supreme Brahman. See that Brahman none other than poorna atma, the primary illuminator.

Mandukaya Upanishad, Class 15

The aim of the seeker is to grab hold of viśva (attention is on the object I witness), then to chaidhasa (attention to witness of the subtle), then to Pragya (witness of casual universe) and finally to Thuriyum. In Thuriyum I turn my attention to I the observer, who am continuously there.

In omkara, instead of viśva, chaidha and Pragya we are turning the attention to akara, ukara and makara. Ultimately I turn my attention to the consciousness which is the witness of the silence. From sound to silence to the witness of the silence. Both sound and silence are object but the awareness is not the object, but it is the witness of the silence. Sound is not in silence and the silence is not in sound, but the witness is in both. Omkara vichara is from the sound to silence to the witness of the sound and silence.

In the eighth mantra onward the Upanishads equates each mathra to each padha. The Upanishads prescribes a meditation to assimilate this equation. The sound Akara is taken as symbol of of virad or viwsa roopa. By practicing upasana, when we say the sound akara, the whole viśvarūpa should come into mind.

The idols are not piece of arts for us, but Vishnu or Shiva. Similarly we should train our mind to sound a as viśva. The two common features of the two are:

- Virat is the first gross creation; after Virat along all other devatas came. In the alphabet akara is the first letter.
- The sound akara alone transforms into all other letters. Akara is the transformative letter from all

other letters are formed. Similarly Virat is also all pervading.

The benefit of this upasana are:

1. Worldly benefit; or Attains kamas and pervades in terms of his possessions. He expands in life also; in terms of children, grandchildren etc.
2. In life, he will become top most.
3. The spiritual benefit is his capacity to equate akara to viśva. This very skill is a spiritual benefit. When he practices vedantic meditation, as he chants omkara, his mind thinks Virat, to Hiranyagarbha and then to andaryamin then to chaithanya adhirshatanam. Facility or skill in omkara dhyānam through which he can smoothly land in consciousness.

Mantra 10

Taisaja, whose filed is the dream state, is the second letter "u" due to the similarity of superiority and mindlessness. One who mediates thus extends the range of knowledge and becomes equal to all. In his family there will be no one who is ignorant of Brahman.

The second pada chaidhasa or Hiranyagarbha representing the subtle universe. This is equated to the second mathra ukara. 0 is a mixture of akara and ukara based on the sandhi rule. This ukara symbolizes the meditation on the second pada. Common features of ukara and chidhasa:

The superiority: Hiranyagarbha is superior to Visva. Hiranyagarbha is superior because:

1. Subtle is always superior.
2. Gross is born out of subtle. Sukshma is kāraṇam (cause) and gross is kariyam (Effect).

Ukara sound is superior to the sound of Akara because ukara comes after akara. Therefore akara resolves into ukara. Ukara being the resolution ground, it is superior. Therefore Hiranyagarbha and ukara are both superior.

Second common feature is that they both are intermediary status. If you take viśva, chaidhasa and Pragma. Chaidhasa is in the middle; ukara is the middle between akara and makara. Train your mind to see the whole subtle universe or the cosmic mind or cosmic knowledge.

The benefit of this upasana:

You can practice this as a sakama upasana, you will get the following two results:

1. Because the upasana is on total Jñāna sakthi, it is equal to Saraswathi upasana and the upasaka will become a great learner. The extent of his knowledge will increase.
2. He will become a common man to everyone. He will be accepted by all groups. His knowledge will influence other members of his family also and they will become more learned person.

Mantra 11

Pragma, whose field is the sleep-state, is the third letter "m" due to the similarity of being a measure and being the ground of dissolution. One who meditates thus knows the truth of all this and becomes the ground of dissolution.

The third mathra of omkara is makara and should be equated to Pragma otherwise called andharyami or Eeswara. Pragma should be mediated up on makara. The two common features:

1. Mithihi means a measuring vessel. Pragma and makara are comparable to a measure. Measure (ulakku) disappears in

a sack of grains and appears again later. Pragma is also a measure. When I go to sleep, the visible world of my knowledge, ignorance they all enter into me. But they all appear again when I wake up. This cycle happens every day. Therefore Pragma is like a measure. Similarly when you say makara also, we swallow all other sounds. The speaker when he closes the mouth with the sound ma, all other sound dissolves, but they all come back when I speak again. So the sound ma is also like a measure where all sounds disappear and appear.

2. Abithihi: Means ground of dissolution or merger or disintegration. This is the common feature between common feature between Pragma and makara. Pragma stands for one who is in sleep state; one associated with kārāṇa prabañca. As Pragma I dissolve everything into me. At samshti level, Eeswara dissolves everything into himself. The sound makara is also the resolution of all other sounds. When you shut your mouth, it becomes m. That will be the last sound you will product, when you close the mouth.

Keeping these two common features, one should practice.

The one who practices this upasana he will get two fold benefits:

1. Because of measure upasana, he will be able to measure everything and everyone properly.
 2. He becomes the ground of resolution; he becomes one with the Eeswara.
-

Sadhana Panchakam – Class 5

Shankaracharya discussing final stages of Jñāna yoga – sravanam, mananam, nidhithyasanam. Sravanam is nothing but systematic analysis of upaniṣadic statement. It is called vedanta vichara, vedanta mimamsa etc. Through systematic analysis we discover consciousness is the essence of individuals, and existence is the essence of the world; consciousness and existence are one and the same. This we call sat chit atma. Consciousness called sat and existence is called chit. This alone we call jivatma paramatma aikyam. This is sravanam.

Mananam is logically refuting all other systems which are contrary to vedantic teaching. Any knowledge involves two paths; one is seeing the rightness of the right path; second is seeing the wrongness of the wrong path. It is not enough to see the right alone; we also need to see the wrongness of wrong idea; if we don't, one day the wrong idea may appear right. Knowledge is knowledge only when it can't be shaken by anybody. I should know truth as truth and non-truth as non-truth. For opinions we can have variety, but for knowledge we can't have variety. Rope is rope and it is not a snake.

Vedanta makes statement regarding three fundamental things: Jiva, jagat and Eeswara. First it says jiva is infinite and ananda swaroopam. This we are not able to accept. Then it makes the statement about the world that the world is unreal. I am solidly facing the world all the time. How can I dismiss this wonderful solid universe? The third statement says that you are not different than the lord. This I can't accept at all. When we are in such despair, other system will be easily acceptable. Other systems say jivatma is different than paramatma. Paramatma created the universe and jivatma. All other systems are very appealing to intellect. They all claim that they are rational systems based on logic and reasoning. Advaidam is based on sruthi, the vedas and use tarka or logic

as a subservient tool. That is why we say shraddha in sruthi is important. A rational person will not accept faith. Their order is reason and scripture. Our order is scripture and reason. Mananam is where every other system is clearly negated. That can be done only with logic. Acharyas of advaidam have logically pointed out the logical contradictions in other systems.

Shankaracharya establishes that logic can't be used in the discovery of reality because logic has inherent limitations. Logic and modern science etc. are deficient in discovering reality. Sruthi itself has said this limitation. This logical repudiation of other systems and seeing innate deficiency of logic alone increase our faith in vedanta.

If logic is deficient and can't reveal the truth, does it mean logic should be totally given up? Sankarachariyar says logic does not need to be given up totally but used as a tool to extract the meaning of sashtra. Don't use logic to invent a philosophy but use it to bring out the teaching of sashtra. This is called sruthi madha tarkakas. For all our questions and doubts, vedas does not give explicit answer. But at the same time, answers are hidden in vedas. We have to bring out the answer to remove my particular doubt. The method used for this is logic. Logic will be helpful in bringing out implicit answers. Many systems were not there at Sankarachariyar time, so he did not repudiate those systems. Later acharyas repudiate those systems based on vedas, using Shankaracharya's method. Answering all my doubts is mananam. The benefit of mananam is conviction of vedanta. I can say "Aham Brahma Asmi" without any doubt. That is a knowledge with conviction.

The final stage of sadhana is nidhithyasanam. Nidhithyasanam is a process by which the knowledge has to be converted into emotional, mental and psychological strength. Our original disease is ignorance, which is at the intellect, but the symptoms are expressed at mental level in the form of kama,

raga, lōbha etc. All the samsara is emotional but the root cause is at the intellect level. The solution is at the intellectual level. But it is not enough. I am convinced I am brahma asmi, but the symptoms of raga dwesha etc. must be totally rooted out. If not, the knowledge is as good as being ignorant. A vedanta does not help me in gaining calm, compassionate, considerate, generous, charitable mind – for that vedanta is utterly useless. This requires assimilation of the teaching. The knowledge coming at the emotional level as emotional strength, duty and refinement. This is called jivan mukthi. Knowledge is at the intellectual level, but the benefit is at emotional level. Assimilating vedanta requires effort and requires removing each weakness. It is a lifelong painful long process. It is a lifelong process of consciously addressing every emotional weakness. The weakness is different for each person. For one it may be a superiority complex and another it may be inferiority complex. Each of them should be removed. This is nidhithyasanam and it requires time and constant alertness to discover the weakness coming up. For this introspect is required to gain auto suggestions when the weakness appear on day to day life.

We should look at what I am (Brahman) and what I am not (śarīra thrayāṃ). I should be able to see my own body as one of the objects of the world. We should have the same objective attitude towards our body as well as the bodies of the ones we love. Then the knowledge will be steady and firm. Cultivate I am brahman notion and negate I am body notion. This is nidhithyasanam and it requires lifelong commitment.

Sankarachariyar gives instructions on how to live. These instructions assume a person is at the stage of sanyasi. We will modify it to fit everyone:

1. Make sure you don't become arrogant because of this knowledge. Constantly remove the arrogance. Always be

In karika # 6, Gaudapada said, whatever is impermanent is unreal while whatever is permanent is real. Swapna prapancha and jagrat prapancha both are finite as such unreal.

Shnakaracharya said object of experience is always mithya. Whatever is an object of experience depends on subject. Without subject, object cannot be proved to exist hence it is mithya.

In Karika # 8, we did make a change in sequence of Karikas to better address continuity of theme; here a questioner was asking as to why we can't take swapna prapancha as reality. Gaudapada refutes it by saying that whether dream is unique or not, dream depends upon the observer for its existence. Since the unique dream object depends on the dream observer, it does not have independent existence of its own and therefore it must be understood as mithya. There is no objective world existing. Ordinary and extraordinary all are dependent on subject.

In Karika # 7 another questioner says he agrees that swapna parapancha is unreal; but he says, I cannot accept Jagrat parapancha is unreal. His contention is as follows:

He disagrees with the definition that, "Whatever is impermanent or an object, is mithya."

He wants to give a changed definition wherein Swapna parapancha is shown as unreal while Jagrat prapancha is shown as real. He now suggests four definitions, in each of which, Swapna parapancha is shown as unreal while Jagrat prapancha shown as real.

Gaudapada refutes each definition. He says, you have to accept both as unreal or both as real; the idea that one is real while other is unreal will not work. We are working to define absolute reality, while you are defining relative reality or mithya, says Gaudapada.

should be rationally held to be unreal.

Karika # 9:

Here the questioner suggests a second, definition that proves that Swapna prapancha is unreal while Jagrat prapancha is real. He says Swapna parapancha is unreal because it is a mental projection. Dream world is within my mind as a projection, hence unreal, while Jagrat parapancha is outside me. I experience everything outside me; the desk, the people, the hall, etc; it is not a mental projection. What is within is unreal while whatever is external in reality. Whatever is external is real and whatever is internal is mithya. Externality is the criterion for reality and internality is the criterion for unreality. He suggests dream world is unreal while this world is real.

Gaudapada says: you say swapna prapancha is inside; word inside is a relative one. If asked the question, are all of you inside or outside, what will be your answer? You will probably never answer; rather you will ask, inside of what? If I say it is about this stage where I am sitting, the answer will be it is outside. So one needs to know inside or outside of what? From which stand point? From waker's stand point it is outside. But in dream, you are performing all transactions with dream body, while waker's body is lying on bed. From dream body point of view, the dream world is outside of it; I don't even know I am dreaming; **dream itself is only from waker's point of view.**

Now suppose you wake up and your reference point changes. From waker's point of view Swapna parapancha is within. The same is story of Jagrat prapancha as well. Once you look at Jagrat prapancha from Jagrat body point of view it is outside hence real. But if you wake up from Jagrat prapancha to Chaitanyam, from point of view of Chaitanyam, Jagrat prapancha is also within. So, when you the change point of reference it becomes unreal; so it is a relative truth or mithya.

one from the other.

Swamiji jumped to karika # 14 from karika # 10 for the third definition. He said he is rearranging karikas for purpose of continuity.

In karika # 14, the questioner suggests a third definition of reality that says Jagrat prapancha is real while Swapna parapancha is unreal; he says whatever has an objective existence is real while whatever has subjective existence is unreal.

Elaboration of questioner's position:

Subjective existence means dependent on Me as long as I see it.

Objective existence means, it exists, whether I see it or not.

My house, my car, all I know exist. So, does my car exist outside? Car exists even when I don't see it. Whether I experience it or not, it exists. Object exists independent of me.

In dream, I see, I am saving a drowning person; just as I am about to bring him out, I wake up. Did he fall back in the well? But now, in the waking state, I am not worried about it anymore. You know he existed only in dream. So Swapna prapancha was subjective existence; it did not have a continued existence. Hence dream is unreal, as it has no objective existence. Thus, objectivity is criterion for reality. Subjective existence is criterion for unreality.

Gaudapada's rebuttal:

Gaudapada says this definition will not work. In dream you attend a class and you have parked the car. This swapna world, the dream, it is not just a projection of mind; it is a real world for the dreamer. Only on waking, Swapna Prapancha becomes unreal. Similarly, Jagrat prapancha is also unreal

from Chaitanyam state's point of view.

So, object within you, in dream, have only a subjective existence, hence unreal. Whatever is outside is from dreamer's stand point of view. Upon waking, internal world and external world, both in dream state, are proven as unreal. So, these internal external distinctions have nothing to do with reality. Both are falsified upon waking. In a similar manner Jagrat parapancha is also unreal once you wake up in Chaitanyam.

Hence the hypothesis that states objective existence is real and subjective existence is unreal does not have any merit.

Karika 15:

वस्तुनिष्ठं च यत् प्रत्यक्षं तद्विषयं च यत् प्रत्यक्षं च
प्रत्यक्षं च यत् प्रत्यक्षं प्रत्यक्षं प्रत्यक्षं प्रत्यक्षं च यत् प्रत्यक्षं च

**(Things) which are (experienced) within are not clear.
(Things) which are (experienced) outside are clear. All of
them are projected only. The distinction is due to a different
sense organ.**

The questioner poses his fourth definition. He says whatever is clearly experienced is real. Thus clarity of experience is real. Vagueness of experience indicates it is unreal. Everybody dreams. Some remember the dream and some do not. Even when you remember, it is vague; hence it is unreal.

Jagrat prapancha meanwhile is clear; hence it is real.

Gaudapada says this is a relative definition only. He says clarity depends on instrument used. The way you see depends on your organ of sight. With different set of organs, you will see differently. Some animals are color blind. If I have the sense organs of a dog, I will see everything vastly differently. If I have sense organs that can see at atomic level, I will see everything as atoms.

Dream world is very clear with dream sense organs; it becomes vague only with waker's sense organs.

If I should only have four sense organs, say like a blind person, the world of color will not exist for me. Imagine a person with a sixth sense organ; he will see world very differently as it depends on all sense organs. Hence world is only a relative reality.

So, he says, that which is within us, in Swapna Prapancha, is vague, where as external world for dreamer is very clear, hence real, as long as dream continues. On waking up, the outside world becomes unreal.

Clarity and non-clarity depend on organs one uses. World of human beings is different from that of animals. Even world of man is different from that of a woman.

Take Away:

If so, when will you have final waking up? Ultimate reality is only when you arrive at "object less- subject" or Turiyam state.

Dream itself is only from waker's point of view.

With Best Wishes,

Ram Ramaswamy

Baghawad Geeta, Class 143:

the body, am available in front of you and the whole creation is my shariram alone; you can see the Vishva rupa right in front of you; O Gudakesha. Gudakesha means satva guna pradhana. Arjuna you can; it only requires some refinement, it is possible for you.

This vision includes all moving and nonmoving objects that consist of the body of the Lord. Not only can you see all this but you can see anything else you wish to see as well. So, Sri Krishna offers to cooperate with Arjuna in giving him this darshanam.

Shloka 11.8:

□ □□ □□□ □□□□□□□□□□□□ □□□□□□□□□□
□□□□□□ □□□□□ □□ □□□□□□ □□□□ □□ □□□□□□□□□□□□□□□□11.8□□

But you are not able to see Me merely with this eye of yours. I grant you the supernatural eye; behold My divine Yoga.

Sri Krishna introduces the requirement for two types of eyes. He says, you can't have Vishva rupa darshanam with laukika eyes alone; you need the second invisible Divya Chakshu as well. Some people say even the Tilakam is symbolic of a third eye, of a prepared mind also known as Bhavana Chakshu.

Imagine a tourist taking pictures in a Hindu temple. He may see the antiquity, the age of statues etc but he will not perform namaskaram to the idols, as he is not imbued with a sense of the divine in them. It is in our culture that we see the divine even in a stone idol due to our attitude.

When Vibhuti comes we apply it on our forehead. Ash itself is worth nothing; it is our attitude, however, that makes it the Vibhuti. And what is that ash worth; its worth can be seen only by Divya chakshu; and therefore Sri Krishna says Vishva rupa darshanam requires divya chakshu; to do namaskaram, to revere, requires divya cakshu; to do the prokshanam of the river water requires Divya Chakshu; without that it is not

many faces, and many mouths; many eyes; how are we to understand the Lord with many eyes; does it mean that eyes are sticking all over; and if mouths are all over, how eyes will be all over; therefore do not imagine a form with countless eyes and ears; Arjuna learns to see all the mouths of all the people as the mouth of the Lord. There is no more it is my mouth; that is called ahamkara.

When I myself am not there; there is no individual separate from totality; There is no Tamil Nadu; separate from India; there is no wave separate

from ocean; there is no vyasti separate from samashti. When the egoist "I" do not exist anymore where is the question of saying my mouth, my eyes; my land etc.

As somebody said, **it is better to have a heart without words rather than words without heart behind it.** And therefore that bhavana is important; all the mouths are Bhagavan's mouth; all the eyes are Bhagavan's eyes Innumerable wonders, all of them belong to God. Lord is wearing many ornaments; all ornaments in universe are god's abharanam. In our culture, before wearing an ornament it is placed in front of Lord. I am only taking it on lease. I will use it without claiming ownership or mamakara is the spirit behind it.

Lord with countless weapons in his raised hands. Sanjaya mentions weapons as Gita is occurring in a battlefield; all these weapons belong to the Lord. How is a weapon divine?

Two reasons are given:

1. When weapon is in the hand of a person, it is laukika but in hand of god, it is divine. If everything is in God, everything is sacred.
2. All weapons are for protecting Dharma as such associated with Lord or divine. God is in form of order and harmony in creation.

Should the effulgence of a thousand suns blaze forth simultaneously in the sky, that might be similar to the radiance of that exalted One.

What is brilliance of the Lord? I am not able to even look at the sun; sun being an ordinary star. I can't withstand looking at the sun. Imagine if I can see the brilliance of a thousand suns; imagine if I can see the brilliance of all stars. Sanjaya says, suppose the brilliance of a thousand suns rises simultaneously, that is the comparison for the brilliance of Vishva rupa Ishvara; it will be indescribable.

So that will be the brilliance; that will be the comparison for the brilliance of the mahatma; mahatma means Vishva rupa Ishvara; So that is the brilliance, it is indescribable. Mahatma Here means the infinite body that is the Lord

Shloka 11. 13:

□□□□□□□□□□ □□□□□□□□□□□□ □□□□□□□□□□□□□□□□
□□□□□□□□□□□□□□□□ □□□□□ □□□□□□□□□□□□□□□□□11.13□□

At that time, Pandava saw there, in the body of the God of gods, the whole diversely differentiated Universe united in the one (Cosmic form).

Sanjaya continues; saying Arjuna saw everything in the infinite body of the Lord. It is divided in manifold forms; Arjuna saw in manifold forms in the body of the Lord. Yashoda also saw the whole universe in Sri Krishna's mouth. Sharira here is not the limited body rather it is the vast space itself.

Sanjaya reports that before obtaining the Divya Chakshu, Arjuna saw the world as a persecuting world; problematic world; unfaceable world, burdensome world. Now the very same world has become totally different and therefore after being blessed with Divya cakshu Arjuna saw the Vishva rupa.

cited.

First reason: Shankaracharya, in his commentary, says, something mind boggling to us. He says Jagrat Prapancha is Mithya because you see it and since you are experiencing it. It is similar to experiencing Swapna Prapancha. He uses a generalization that says: **whatever, is experienced by you is Mithya,**

If, whatever is experienced by you is Mithya, what is Satyam? Shankaracharya says, whatever is not seen by you, is Satyam; if we can think of such a thing; it is non-existent. **He says, whatever is existent, but not experienced by you, is Satyam; that is the Experiencer, the Subject, is Satyam.** In both prapanchas, the objects are all Mithya. How do you say so? Shankaracharya does not provide an explanation for this.

Our reasoning for this is as follows. I have discussed it in my introduction to Mandukya Upanishad as well. **Whatever is an object of experience, its existence will depend on the Subject alone. Existence of subject, however, does not depend on Object.**

If there is an object that cannot be experienced by anyone, then you can't talk of existence of object. **Existence depends on Knowability and Knowability depends on Knower. So, existence of object depends on subject.**

Citing an example, suppose I dream that I am saving a drowning person and having partially saved him, I wake up. Now, do I worry about that partially rescued person? You know the object does not exist. Thus, object has dependent existence on subject. Subject has independent existence; it is not dependent on object. Vedanta says, whatever has independent existence is Satyam. While whatever has dependent existence is Mithya. Citing example of a pot, it does not have an existence separate from Clay; it is dependent on clay for its existence; in fact it is clay alone.

Shankaracharya says both Swapna Prapancha and Jagrat Prapancha are Mithya. This is the well-known reason.

Normally we say, when we see something, it is real. However, Shankaracharya says, when we see something, it is Mithya.

Karika # 6:

अविद्यया मया कल्पितमिदं सत्यं न जानीमि |
अविद्यया मया कल्पितमिदं सत्यं न जानीमि || 6 ||

That which is non-existent in the beginning and in the end, is necessarily so even in the present (in other words, in middle). Those (objects) are like illusions we see and yet they are regarded as though real

Second Reason:

Now Gaudapada gives the second reason why objects are Mithya. He says, whatever is finite (Anityam) is Mithya while whatever is Nityam (present in all three states of time) is Satyam. Tatva bodha also gives a definition that states that one that exists in all three states of time (past, present, future) is Satyam. Any finite object enjoys existence for a limited duration; namely after date of birth and before date of expiration; thus, a pot exists only during a limited duration of time.

If a finite object has limited existence, then its existence is not its intrinsic nature; it is only an incidental property.

Fire enjoys heat as it's intrinsic nature; hence it is always hot; conversely, water enjoys heat only for a limited time; hence its heat remains only for a limited time. Intrinsic nature is permanent while finite nature is limited.

Citing an example, a person wanted to remove the onion smell from an onion. He placed it in a chamber and did abhishekam of sandal wood paste and kalpuram for three hours; but at end of

□□□□□□ □□□□□□□□□□ □□ □□□ □□□□□□□□□□□□□□□ □
□□□□□ □□□□□□□□□□ □□□□□ □□□□□□□□□□ □ □ □

The objects perceived by the dreamer when they are such a unique nature as not easily met within the waking state, undoubtedly owe their existence to the practical condition in which the dreamer with his mind works for the time being, as in case of those residing in heaven. The dreamer, associating himself with dream conditions, experiences those objects just as a well-informed person goes from one place to another and sees the objects belonging to that place.

Swamiji said I will explain Karika # 8 first and then come back to Karika # 7.

Karika # 8:

Gaudapada has said Swapna prapancha is mithya as is Jagrat prapancha; two reasons are given for it. One reason is attributed to Gaudapada and another to Shankaracharya.

Now a student asks a question. In Student's vision Swapna Prapancha is real. Generally, Swapna is considered unreal; but there are some philosophers including those of Vishishta Advaita, who say Swapna Prapancha is real.

They say the vasanas formed in our jagrat avastha come up in Swapna. This philosopher says, I don't accept Swapna Prapancha as mithya as in dream; we do see unique things that we had not experienced in the waking state. Dream must be another unique different world of experience and so must be taken as satyam. Since the waking state is similar to dream, it must also be satyam. Some darshanas like vishishtadvaita hold that dream is not our mental projection but created by God for a particular jiva. Thus uniqueness is the criterion for reality. Waking and dream are both unique in their own way and both must be taken as satyam.

Gaudapada's answer is that uniqueness cannot be taken as

criterion for reality. We do have several mental projections unique to us. If uniqueness is criterion for reality, whatever we uniquely project can be considered to be real. That is not so and the argument that uniqueness is the criterion of reality is simplistic. No one accepts dream as real. Whether dream is unique or not, dream depends upon the observer for its existence. Since the unique dream object depends on the dream observer, it does not have independent existence of its own and therefore it must be understood as mithya. There is no objective world existing.

Even accepting Vasishtha advaitins assumptions, Gaudapada says Swapna Prapancha is Mithya. The reasons are as follows:

The type of world that we experience will depend upon the type of instruments that we use. Suppose we are using eyes, the world will be understood as the world of forms. The moment you remove the eyes and use only the ears, the world will be the world of sounds. Depending upon the instrument, the world will be experienced differently. If instead of a human body we have an animal body, this world experience will be unique to the animal body. Many animals cannot see colors and for them this world will be black and white only. **Vedanta says that we do not experience the world objectively but our experience depends on the instrument that we use.** The moment a human being gets a celestial body, he will experience a celestial world here and now. Citing the example: In heaven there are unique objects such as white elephant, special chariots etc. Even these are dependent on observer in heaven or heavenly observer dependent.

Gaudapada gives another example of experiencing different things in different places with the observer being the same. Just as a well-educated person travels from place to place experiencing different things in this earth itself, similarly, the jivatma travels from loka to loka experiencing different things in different births. All these experiences are dependent upon the observer for their existence and dependent

upon the instruments of

Experience for their nature. Uniqueness cannot be the criterion for reality.

In karika the words Sthani means Observer and Dharma means dependent.

Shloka # 7: Another question comes up.

Previous student did not accept Swapna Prapancha was unreal. Now, a second student says, I am willing to accept Swapna Prapancha is unreal but I can't accept Jagrat Prapancha is unreal because whatever money I earn in dream, I don't find any utility at all; but I can't say that of Jagrat prapancha. In Jagrat prapancha the money is available and useful. So definition of reality has to be change.

His contention is that: Whatever is useful must be accepted as real. Utility must be a criterion for reality.

He also contends that whatever is useless, is unreal. Hence Swapna Prapancha is mithya while Jagrat Prapancha is real. This is question raised by a student.

Gaudapada refutes this by saying that this definition does not work.

He says waking state objects are useful in the waking state only. Dream objects are useless in the waking state but are useful in the dream state. In fact, dream objects alone are useful in the dream state; such as dream water, dream food etc. Each object is useful in its state and useless in the other state. Utility in the respective state is common to both waking and dream and uselessness in the other state is common to both. Therefore both states should be given the same status of reality. The utility of the waker's objects is falsified in dream. Thus, utility is not a criterion for reality. That which is beginning-less and eternal alone is real. Eternity is

the criterion of reality. So the waking world is mithya.

Truth is that Reality is not relative. So swapna parapancha is unreal. Jagrat prapancha is also unreal even though it is useful in jagrat avastha. So utility is not a criterion for Reality.

With Best Wishes,

Ram Ramaswamy

Bhagawad Gita, Class 142: Chapter 11, Verses 3 to 8

Shloka # 3:

सर्वज्ञोऽहं सर्वभूतानां
महेश्वर इति मे कथितं
तव शरीरेण तव मुखेण
तव शरीरेण तव मुखेण॥११.३॥

Supreme Lord! Highest Spirit! It is even as you have described yourself. Yet I would like to see this lordly form of Yours.

Continuing his teaching, Swamiji said, Chapter # 11 is dealing with Vishwa Rupa Ishwara Darshanam. We should have a clear understanding of this Ishwara darshanam. It talks of a very thrilling, electrifying experience for devotees. Shabari waited for years for a glimpse of Sri Rama and at last when gets it and the great thrill she enjoys has been described. Similarly Thyagaraja also sings about Shabari's Darshanam of Rama. Similarly, Sri Krishna darshanam is also talked about. All darshanams are considered mystic ones.

Now, to have an experience, the object of experience must be available to me; also there must be an experiencer, who is prepared for the experience. Let us say I talk about Carnatic music; but unless the listener has some idea of Carnatic music he cannot enjoy my talk, as he is not prepared as a listener. Normally we focus on the object of experience and forget the experiencer. This is true of Ishwara Darshanam as well. Shabari got Sri Rama Darshana Ananda but it was not only due to Sri Rama but also because Shabari was prepared for the darshanam.

How to prove this? Swamiji says, the very same Rama was available to Ravana as well but nothing happened. Object was available but subject was not prepared; Ravana's mind did not change even after darshanam.

So preparation on part of person is important else even god is helpless.

How about Kamsa? He too had Sri Krishna darshanam but he never changed one bit. Several Rakshasa's even used the darshanam for negative purposes; Basmasura is one that comes to mind. So, for Ishwara darshanam I need a tremendous amount of preparation.

Vishwa Rupa Ishwara is Lord in form of Universe. If you know it's meaning, you know he is right in front of you. God's first name in Vishnu Sahasra Nama is Vishwam. He is already available in front of me. If we don't get thrill of darshanam, it is because of non-preparedness of devotee. That preparedness is nothing but purity of mind, a mind without kama, krodha, moha, madha, lobha and matsarya. These are the obstructions to this darshanam. When the cataract of the obstacle of kama, krodha, ahamkara and mamakara impurities are removed, God need not come; I begin to appreciate the already available Vishvarupam.

Arjuna says, O lord, I understand you are jagat karnam. I can

understand intellectually that you are in all namas and rupas; but I don't get its impact.

So, what is missing? A prepared mind is missing and it is also known as Divya Chakshu. It is like one person is interested in Carnatic music but another person is not. So he asks Sri Krishna to help him get darshanam.

“In shloka # 3, you describe Vishwa rupa but nothing happens to me. Where is the lacuna? I would like to see your Vishwa rupa”, says Arjuna.

Shloka # 4:

शुभं कुरु ॐ शंभुं शंभुं शंभुं शंभुं शंभुं शंभुं
शंभुं शंभुं शंभुं शंभुं शंभुं शंभुं शंभुं११.४०

So we have seen the object of perception is available, Vishva rupa and still if I do not see it, the defect must be only in the observer. There must be some problem with me; therefore I do not feel the divinity when I experience the world. And, therefore, 0 Sri Krishna, is it possible for me at all; to have that divinity or Vishva rupa darshanam, can you prepare me to have this darshanam? Please help me!

Purity of mind cannot occur overnight. It requires a lot of Karma yoga and sadhana and the transformation is slow; and it is not a revolution. Is there any method I can get this purity of mind, 0 Yogeshwara! asks Arjuna.

Shloka # 5, 6, 7 and 8:

शुभं कुरु ॐ शंभुं शंभुं शंभुं शंभुं शंभुं शंभुं
शंभुं शंभुं शंभुं शंभुं शंभुं शंभुं शंभुं११.५०

The Blessed Lord said 0 son of Prtha, behold My forms in (their) hundreds and in thousands, of different kinds, celestial, and of various colors and shapes.

शुभं कुरु ॐ शंभुं शंभुं शंभुं शंभुं शंभुं शंभुं शंभुं

darshanam, he is not able to stand Vishwa rupa darshanam. He tells Sri Krishna, I don't want this Vishwa rupa darshanam. Only a truly purified mind can absorb such a darshanam.

So, Sri Krishna accepts Arjuna's request. Just as one needs a 3 D glass for some movies, Sri Krishna says, I will bless you with a Divya Chakshu so that you can see many of my forms, varied in nature; all divine; of different colors and shades. When you will see rupa in many colors it is not a particular form, rather it is all forms and colors of universe, as all are Ishwara varnanam.

Citing an example Swamiji says, form does not belong to the bangle; it belongs to gold. Thus, Sri Rudram describes Shiva in many colors. This rupam is available to all cowherds. They are all the colors of Vishwa rupa Shiva. The green hairs of Shiva are the green trees. My mind should see it as Vishwa rupa darshnam. Thus, we see same colors, but we need to see them with a different attitude; it is like seeing a laddu from Tirupati, it becomes divine; it is appreciated by the mind that has devotion.

Vishwa rupa has many heads. All heads of peoples are the head of god.

Verities of devatas, representing natural forces are described next. The eight Vasus with different forms are Agni, Prithvi, Antarikhsam, Intermediary lokas, Vayu, Aditya, Chandra, and Stars. May you see the eight Vasus in Vishwarupa.

Twelve Adityas are the sun gods' different changing stages in the twelve months of the year. In each month he has different powers. May you see the Adityas as Vishwarupa.

Our ten sense organs and mind are called Rudra Devata. May you appreciate the Rudras.

Ashwini Kumaras are the ones presiding over Pranas. May you appreciate them as well.

Marut Devatas are different aspects of Vayu Devata. You have not noticed all of them as Vishwarupam.

And therefore rain is a wonder; earth is a wonder; Sun is a wonder; anything you take it, is a wonder,

it is the glory of the Lord. May you see that; temporarily drop your day-to-day business; temporarily keep your cell-phone somewhere. After its (cell phone's) coming, there is no time for anything; so wherever you go drop it; and just watch the universe.

So in Me the Vishva rupa Ishvara; whose body is the very sky itself, see the entire universe.

When Yashoda asks Sri Krishna to open his mouth she saw all the 14 Lokas; and then she said, shut up. She was not prepared. Sri Krishna is blue as sky; it means vast blue sky is a form of Sri Krishna, with galaxies floating in it. The whole universe is contained in Me.

Last week or so, some student; I do not remember who that student is, gave a cutting; so I just read through it; it is a very interesting write up, I will read only the first paragraph alone. It describes the Universe.

It says, consider a puff of dust a meter in diameter. Consider every grain of dust is a galaxy with many stars. We live near an ordinary star and are member of an ordinary galaxy. Every night we are shown that the universe has a beginning but most of us simply regret, use or enjoy the dark without perceiving that; it brings knowledge; If you are willing to learn from darkness, he says; even though so many stars are there; between the stars there is a vast emptiness is there. Think what must be the size of the universe; which accommodates all these galaxies and stars. This universe, with vast emptiness and galaxies are accommodated in space; so what must be size of the space; and that space is the

size of the Lord; Meditate upon that, Try that.

With Best Wishes,

Ram Ramaswamy

Mandukya Upanishad, Class 20

Greetings All,

Continuing his teaching, Swamiji said, I said in last class in Vaithatya Prakaranam, Gaudapada establishes Mithyatvam of world. It is not directly mentioned but indirectly revealed through Prapancha Upashamanam. This method is called Shruti Pramanam or Shrutyarthartha pramanam; which means obtaining knowledge indirectly from scriptures.

What is reality can't be negated. We can't say world is not existing as we experience it everyday. That which is experienced, yet is not reality, is called Mithya. The English word closest to Mithya probably is unreal. Gaudapada establishes this mithyatavam from Prapancha Upashamanam.

Mithyatvam's closest example is dream. It is experienced by all of us. In dream we see that it is very real, giving us pleasure and pain. Dream also has utility value when we are actually in a dream; despite all this we know dream is not real. So best example for mithya is swapna.

In first three shlokas of this chapter Gaudapada establishes swapna is mithya. That swapna is mithya is established through

Yukti, Shruti and Anubhava pramanam's and he does so systematically.

He uses Vyapti for generalization thus he says where there is smoke there is fire. The statement, "a mountain is on fire as it has smoke" is analyzed as shown below ,using Gaudapada's logic:

1. Mountain is the paksha or locus about which I make an inference.
2. Mountain has fire; it is called sadhyam or conclusion.
3. Because there is smoke, the indicator, it is also known as Hetuhu or the reason.
4. Drishtantaha: means an example, as in a yagashala; because it is in a yagashala that you get Vyapti Gyanam or knowledge for inference.

This method of logic is now used to show Swapna is Mithya. Vyapti here means knowledge of co-existence of smoke and fire. Here Vyapti is a generalization. When we see an object in jagrat avastha as real, we observe that the object requires an area and volume (space) for existence, also known as Uchita Desha in Sanskrit. Not only volume of space, every object also needs duration (time) for its existence.

Einstein talked of four coordinates, the fourth one being time, indicated by date of origin and expiration. Every object requires a time.

Existence of events also requires duration of time. In Gita classes a question comes up. Swamiji, you teach the 700 verses of Gita in five years or 250 hours, describing the teaching in battlefield; how did Sri Krishna teach all 18 chapters in the duration of a battle? The basis for this question is because every event requires a specific duration of time and if specific duration of time is not convincing, you tend not to believe it.

Conversely if you find an object or event without enough space

or time we conclude that object or event is not a real thing. Hence, some say Gita was an invention of Vyasa, as there is a time and space issue. **They don't accept the teaching as real due to a lack of time requirement.**

When you see a reflection of an elephant in a mirror, mirror has flat surface and an elephant can't stand on a flat mirror. You accept elephant in mirror as mithya or unreal reflection, knowing a real elephant can't stand on the flat surface of a mirror; **so the elephant reflection is an unreal one as there is not enough space for an elephant to exist on the mirror.** Thus, when sufficient space is not there, that event is mithya.

Applying this logic Gaudapada says, dream world is also mithya as it lacks time and space for dream to exist as reality. Hence dream is unreal. This is the beginning of Vaithatya prakaranam.

Karika # 1:

सर्वान्निद्रावस्थानुभूतानि तत्रैव सिद्धानि तत्रैव निवृत्तानि ।
सर्वान्निद्रावस्थानुभूतानि तत्रैव सिद्धानि तत्रैव निवृत्तानि ।

The wise declare all objects of the dream as illusory, they all being located within the body and also because of their being in a confined space.

This shloka logically establishes swapna prapancha as mithya. First logic is lack of space; like elephant in a mirror. Dream objects and events are subjective things within our minds, not outside it; else others in the world would also see your dream.

Thus, swapna objects are subjective things in my mind. In dream we see elephants although it requires not an ordinary amount of space. We can't accommodate an elephant, but we see elephant, moon, stars etc in dream space. So wise people say all objects in our dream are mithya. A special all pervading

space is created within my head. Why is it unreal? It is because all objects reside within myself. What is wrong with it? The space within me, within my head is limited or insufficient for a real elephant, or a mountain etc., to exist. Now in next shloka he talks of events that also are mithya as they occur in insufficient space.

Shloka # 2:

□□□□□□□□□□□□ □□□□□ □□□□□ □□□□□□□□□□□□ □
□□□□□□□□□□□□ □□ □□□□□□□□□□□□□□□□ □ □□□□□□ □ □ □

On account of the shortness of time, it is not possible for the dreamer to go and see the dream objects. Nor does the dreamer when he wakes up, indeed find himself in all the places seen in the dream.

Yukti pramanam: (by joining together)

In previous shloka “things” were proved as unreal in dream. In this shloka “events” are shown as unreal in dream. Consider a dream trip to Mansarovar. You have to reach an airport, then fly and then trek to mansarovar; but duration of a dream-time is only about 8 hours during your sleep time. Within the span of a dream, during our sleep, we manage to see events such as our marriage, children and even grand children. They say an actual dream only lasts only for about a minute and a half. So, all events are unreal as there is not sufficient time. So, he really does not go to mansarovar. They are all unreal projections of our mind.

Keep in mind that we are accepting it all as unreal in our waking state; in dream state we will not accept our dream as unreal. People pray before going to bed so that they don't get bad dreams. Why this worry; because our dream experience is very real, during our dream. Vedanta says our waking state is also a mithya. Thus we get Yukti pramanam. Thus, mirror located elephant yukti pramanam is over.

Pratyaksha Pramanam:

(perception)

In second line of this shloka we get Pratyakhsa pramanam from our experiences. Suppose in dream we went to Kashi; we saw many cows there; and one cow pushes you and you wake up. If it was a real cow you should have woken up in Kashi, but reality is that you woke up in Chennai. From this it is clear we never went anywhere in dream. After waking from dream one does not experience that he is in dream place, hence dream places, dream travel, dream cows, are all, unreal. This is Prathyaksha Pramana.

Shloka # 3:

Shruti and shastra pramanam.

(convincing illustrations on the subject matter which is beyond senses/common cognition)

□□□□□□ □□□□□□ □□□□□□ □□□□□□□□□□□□ □
□□□□□□ □□ □□ □□□□□□□ □□□□□ □□□□ □□□□□□□□□ □ □ □

Strictly conforming to reason and logic, Sruti also declares non-existence of the chariots and so on, perceived in his dream by the dreamer. Moreover, it is said by the seers that Sruti herself declares the illusory nature of dream experiences, and establishes the same through logic and reason.

Shruti Pramanam:

In Brihadaranyaka Upanishad, Ch 4., section 3, the waking, dream and sleep states are discussed. In swapna there is nothing. Everything is a mental projection. There are no vehicles, no roads, etc; we manage to project them in our mind. They are mithya even though we experience them. **“Experience does not prove reality” is the lesson of Upanishad. Gaudapada shakes us even further with his declaration that, “**

Whatever you experience is not real. There is only one reality, the " Subject" alone is real."

This is knowledge of shruti. Therefore unreality is established logically and it is also asserted in Upanishad. The fact is swapna prapancha is mithya.

Shloka # 4:

वस्तुवद्विषयं स्वप्नं जगत्प्रपञ्चमिथ्या
वस्तुवद्विषयं जगत्प्रपञ्चमिथ्या

Different objects cognized in dream are illusory because they are being perceived to exist. For the same reason the objects seen in the waking state are also to be considered as illusory. Just as in the waking state, so also in the dream, the nature of objects remains the same. The only difference is the limitation of space in case of dream objects, they being seen in the within.

With first three shlokas first topic that swpana Prapancha is mithya, is over. From shlokas 4 through 18, Gaudapada is going to give us a shocking revelation. Our normal thinking is that this world is real while dream world is unreal; this is your assumption, says Gaudapada. **He says, even the Jagrat prapancha is unreal.** This has to be very carefully understood and assimilated or it can cause confusion.

When we say dream is unreal, we say this after waking up, as a "Waker". So it is a Waker's point of view. However, in dream, from dreamer's point of view, dream is very real; as whatever happens in dream affects the dreamer. When a dog bites the dreamer, he will feel it and go to a dream doctor and take dream medicine and even pay in dream money. So, one has to think from an appropriate point of view.

Citing an example, a man drank too much at a pub and started seeing double. He asked owner how much he drank. Although he drank only one bottle, pub owner with an intention to cheat

said you drank two bottles; and since he was seeing doubles anyway, he said you have to pay for two bottles at Rs 100 each. The drunk took out a hundred-rupee note and said it was Rs 200 for the two bottles; he was still seeing doubles.

Similarly, for dream body, dream world is very real. So also from waker's point of view this world is very real. **Once you wake up, the dream world is now mithya. Similarly, once you shift to Turiyam standpoint, jagrat avastha is also mithya.** Thus, Swapna prapancha is real for swapna shariram while Jagrat prapancha is real for sthula shariram. Both are in fact "unreal" in respective jagrat and Turiyam states.

Therefore wise people declare world is Mithya in jagrat avastha, as well. So jagrat prapancha is exactly like dream world. Is there any difference between two states? Between mithya jagrat prapancha and mithya swapna prapancha, Jagrat prapancha is outside of body while swapna prapancha is inside body. The common factor between both states is Mithyatvam.

I accept Swapna prapancha as mithya as it does not have time and space. But Jagrat prapancha has enough time and space; if so why is it Mithya?

Take Away:

" Experience does not prove reality" is the lesson of Upanishad. Gaudapada shakes us even further with his declaration that, " Whatever you experience is not real. There is only one reality, the " Subject" alone is real."

Once you wake up from dream, the dream world is now mithya. Similarly, once you shift to Turiyam standpoint, jagrat avastha is also mithya.

With Best Wishes,

Ram Ramaswamy
